

The Wars With the Highest Annual Death Tolls

Major wars/conquests in modern history* with the highest average deaths per year

* 1492-2005

An exact death toll is often not possible. Figures represent upper estimates and include the deaths of military personnel, civilian deaths as a result of military actions/humanitarian crimes and war-related famines/disease.

Death Tolls:

Under-Reporting Covid-19 Deaths: 15 Times the Official Death Toll. Uk's over Half a Million People Dead. the Covid-19 Cover-Ups Harry Myra,2021-02-28 Everyone is aware of the public outcry regarding how the elderly were abandoned to die of Covid 19 in care homes and in their houses There s a big reveal in that the UK has taken global leadership in under counting and under reporting its official death toll Countries over run by the pandemic are heavily attributing Covid 19 deaths to underlying conditions and co morbidities That has been surprising But what is even more shocking is the extent to which this has happened To say it is a tip of the iceberg is perhaps an understatement Is the UK s actual death toll as much as 15 times the official figures That s the big reveal There is a reason why the official death toll only focused only on the NHS and hospital deaths The book reveals it is a tip of the iceberg but the extent is one that is shocking The book highlights the women leaders who protected their countries from the crisis contrasting them with macho men leaders who chose the path of herd immunity even against shocking scenes yet due to massive egos refused to change course The book covers George Floyd in a unique way The race for a vaccine is presented but will the public accept the shortcuts and the methods used

Atlas of Global Change Risk of Population and Economic Systems,2022-01-24 This book is open access and illustrates the spatial distribution of the global change risk of population and economic systems with the maps of environment global climate change global population and economic systems and global change risk The risks of global change are mapped at 0 25 degree grid unit The risk results and their contribution rates of the world at national level are unprecedentedly derived and ranked The book can be a good reference for researchers and students in the field of global climate change and natural disaster risk management as well as risk managers and enterpriser to understand the global change risk of population and economic systems
