## **Death Western Thought:**

**Death and Western Thought** Jacques Choron,1963      **Reason and Sexuality in Western Thought** David West,2005-05-06 This book traces the genealogy of ideas of reason self and sexuality in the West opening the way to a richer and more diverse understanding of sexual experience Western philosophy and religion have distorted and continue to distort our experience of sex and love through three far reaching constellations of reason self and sexuality Thinkers like Plato Aquinas and Kant helped to fashion an ascetic ideal of reason hostile to bodily pleasures and sexual diversity By contrast philosophical hedonism advocates a less demanding conception of rationality and defends sexual pleasure But this approach of thinkers like Hume Bentham La Mettrie and de Sade is still one sided and limiting A third constellation Romanticism avoids the limitations of both forms of rationalism but in the name of a religion of love and passion that ultimately threatens the integrity of the self In Reason and Sexuality in Western Thought a richer understanding of sexual experience is traced to a dissident philosophical tradition In their different ways Montaigne Spinoza Hegel and Kierkegaard Marcuse and Foucault contribute to a more holistic multi layered and open conception of reason sexuality and the self This book will be essential reading for all students of philosophy and gender studies      **Zen and Western Thought** Masao Abe,1989-02-01 This collection of Abe s essays is a welcome addition to philosophy and comparative philosophy      **Christianity and Western Thought** Alan G. *Women and Death* Beth A. Bassein, 1984-03-23 Bassein examines the pervasive linkage between women's sexuality and death in Western thought and literature and concludes that there is no reasonable basis for much of it She first explores how language reveals and reinforces the bond between women and death She then discusses traditional Christianity as a vehicle for perpetuating this tie and demonstrates that negative attitudes and brutality associated with women find expression in otherwise commendable works of art The author examines nineteenth and twentieth century fiction and poetry to show the different ways writers have handled women in sexual situations Bassein concludes that tracing the origins and prevalence of the automatic association and seeking alternatives help us recognize the irrational and unconscious tendencies that are at the basis of stereotype formation and tacit acceptance of brutality

*Victims and Values* Joseph A. Amato, David Monge, 1990-11-21 *Victims and Values* joins history and ethics conducting a timely inquiry into conscience and politics Mindful of William James's notion that ethics must be grounded in the historical situation this book examines fundamental ambiguities dichotomies and contradictions that we experience about the worth of our own suffering and that of others In particular it analyzes how victims make a powerful claim upon contemporary conscience and politics Amato distances himself equally from those who deny suffering all substantive meaning and those who fashionably transform it into self-righteous identities and political rhetorics and ideologies Amato's hope is that each person will be able to take

measure of the suffering of others while still remaining able to value his own suffering After distinguishing pain from suffering Amato starts his work with the assumption that humanity must interpret and give meaning to its pains and sufferings Amato examines the fundamental place of suffering sacrifice and victims in Greek and Christian cultures Reaching the central object of his study the modern mind Amato shows how the reformist world view of the eighteenth century philosopher sought to reduce suffering to a matter of rational calculation and how the progressive views of the nineteenth century dedicated the most profound energies of society and state to the elimination of human suffering Ironically in the twentieth century this resulted in an increasingly hedonistic society that is preoccupied with suffering and its rights victims and their claims Historians philosophers political scientists theologians and lay people will all find a lively forum in Amato s work Buddhist Review ,1915 The History of the Church Missionary Society Eugene Stock,1899 Subject Catalog Library of Congress,1960 **The Expository Times** ,1910
