The Albanian-American Odyssey Dennis L. Nagi, 1989 **Educating Democratic Citizens in Troubled Times** Janet S. Bixby, Judith L. Povich, 2009-02-24 A rebel and risk taker from childhood John McCain son and grandson of admirals nevertheless chose to follow the traditional path marked out for him in the military Nearly six years in a North Vietnamese prison tested his resolve and proved his extraordinary resilience and will to survive Coming to Congress McCain found that making his way in politics demanded a different set of survival skills and he grew accustomed to the corridors of power while striving to keep his independence This lively biography traces McCain s unlikely ascent to the verge of attaining the nation s highest office while never ceasing to challenge himself and others to serve a cause greater than self interest Controversy in the Classroom Diana E. Hess, 2009-05-26 In a conservative educational climate that is dominated by policies like No Child Left Behind one of the most serious effects has been for educators to worry about the politics of what they are teaching and how they are teaching it As a result many dedicated teachers choose to avoid controversial issues altogether in preference for safe knowledge and safe teaching practices Diana Hess interrupts this dangerous trend by providing readers a spirited and detailed argument for why curricula and teaching based on controversial issues are truly crucial at this time Through rich empirical research from real classrooms throughout the nation she demonstrates why schools have the potential to be particularly powerful sites for democratic education and why this form of education must include sustained attention to authentic and controversial political issues that animate political communities The purposeful inclusion of controversial issues in the school curriculum when done wisely and well can communicate by example the essence of what makes communities democratic while simultaneously building the skills and dispositions that young people will need to live in and improve such communities World Yearbook of Education 2011 Lyn Yates, Madeleine Grumet, 2011-02 This book brings together contributions from around the world that analyse and reflect on the way curriculum is configuring and reconfiguring that world **El-Hi Textbooks & Serials in Print, 2005**, 2005 **Testing in American Schools** United States.
