Envy A Theory Of Social Behaviour:

Envy Helmut Schoeck,1987 *Envy* Helmut Schoeck,1966 *Envy* was first published in German in 1966 then in an English translation in 1970 This classic study is one of the few books to explore extensively the many facets of envy a drive which lies at the core of man s life as a social being Ranging widely over literature philosophy psychology and the social sciences Professor Schoeck a distinguished sociologist and anthropologist elucidates both the constructive and destructive consequences of envy in social life Perhaps most importantly he demonstrates that not only the impetus toward a totalitarian regime but also the egalitarian impulse in democratic societies are alike in being rooted in envy **Envy** Helmut Schoeck,Michael Glenny,Betty Ross,1969 *The Ambivalence of Scarcity and Other Essays* Paul Dumouchel,2014-10-01 First published in French in 1979 *The Ambivalence of Scarcity* was a groundbreaking work on mimetic theory Now expanded upon with new specially written and never before published conference texts and essays this revised edition explores Ren Girard s philosophy in three sections economy and economics mimetic theory and violence and politics in modern societies The first section argues that though mimetic theory is in many ways critical of modern economic theory this criticism can contribute to the enrichment of economic thinking The second section explores the issues of nonviolence and misrecognition m *connaissance* which have been at the center of many discussions of Girard s work The final section proposes mimetic analyses of the violence typical of modern societies from high school bullying to genocide and terrorist attacks Politics Dumouchel argues is a violent means of protecting us from our own violent tendencies and it can at times become the source of the very savagery from which it seeks to protect us The book s conclusion analyzes the relationship between ethics and economics opening new avenues of research and inviting further exploration Dumouchel s introduction reflects on the importance of Ren Girard s work in relation to ongoing research especially in social sciences and philosophy *Evolutionary Theory and Human Nature* Ron Vannelli,2001-08-31 *Evolutionary Theory and Human Nature* is an original highly theoretical work dealing with the transition from genes to behavior using general principles of evolution especially those of sexual selection It seeks to develop a seamless transition from genes to human motivations as bio electric brain processes emotional cognitive processes to human nature propensities various constellations of emotional cognitive forces desires and fears to species typical patterns of behavior This work covers two often antagonistic fields biology and the social sciences It should be of strong interest to anthropologists sociologists sociobiologists psychobiologists and psychologists who are interested in the question of human nature influences on social behavior *A Theory of Conflict* Brian Crozier,1975 **Theory and Decision** ,1985 *Journal of Economic Behavior & Organization* ,1994 *Journal of Anthropological Research* ,1973 **The Spectator** ,1873 A weekly review of politics literature theology and art **IJTM** ,1988 **Journal of Institutional and Theoretical Economics** ,1992 **Pursuit of Relative Utility and the Division of Labor** Jianguo Wang,1993 **Dictionary of Literary Themes and Motifs** Jean-Charles Seigneuret,1988 This index is a veritable who s

who of the greats of Western literature The Board recommends it for every collection whose users conduct analytical studies of literature Reference Books Bulletin The powerful hold that literature exercises is based primarily on recognition the reader's ability to identify with others through shared human concerns that transcend time and cultural boundaries These universal themes and how they have been treated in literature from the classical period to the present are the subject of the critical essays comprising this volume A fascinating resource for students and general readers and an essential research tool for scholars in literature it is the first thematic reference on this scale to be published in English The dictionary consists of 143 essays contributed by 98 specialists in world literature Topics covered include themes relating to adventure family life the supernatural eroticism status humor idealism terror and many other categories of human experience Each entry begins with a definition and a sketch on the origin and historical background of the literary theme The topical essay discusses the significance and occurrence of the theme in world literature and supplies information on geographical area genre style and chronology Entries conclude with a selected bibliography of scholarship in the area A cross index to themes and motifs will enable the reader to find information on secondary or related topics Convenient to use and presented in a standardized format this major new reference will be an important acquisition for libraries with collections in English American and world literature

Choice Richard K. Gardner, Phyllis Grumm, 1976

The Contemporary Kleinians of London Roy Schafer, 1997 Roy Schafer in characteristic manner affectionate intelligent constructively critical and sometimes controversial introduces a number of contemporary Kleinian writers on a number of different but essentially related psychoanalytic topics to an American audience This book therefore makes an important contribution to the understanding of some of the most interesting work currently going on in the psychoanalytic movement in London and should act as a valuable bridge between ego psychology and psychoanalysis as influenced by the work of Melanie Klein and between the United States and London Betty Joseph
