It serves as a reminder that the Reformed tradition did not see itself as separate from the universal church though it was principally opposed to Rome. Rather Olevianus and his tradition argue for a Reformed catholicity rooted in the ancient confession of the church. Charged with federal language *An Exposition* explains the Christian faith as the believer's fellowship with God in the covenant of grace. Thus it is significant for its contribution to the development of Reformed covenantal theology. In addition to exhibiting its historical value within the Reformed tradition readers will be directed as Olevianus had intended toward edification in true and sound piety.     **A plain exposition of the Apostles' creed, in questions and answers** Solomon Caesar Malan,1847     *A Brief Exposition of the*
