## WHO GOES THERE?

by JOHN W. CAMPBELL, JR.

**T**O THE READERS OF SCIENCE-FICTION, that fascinating type of literature dealing with that which can happen, but has not happened yet, the name of JOHN W. CAMPBELL is as important as is Newton's name in physics, or Shelley's name in poetry. For Mr. CAMPBELL is that rare combination, editor and author. As editor he has guided ASTOUNDING SCIENCE-FICTION to its present pre-eminence, and by his standards he has set the entire pattern of modern science-fiction; as an author, writing under his own name and as "Don A. Stuart", his famous pen name, he has put to paper some of the finest and most thrilling adventure yarns of other times and places ever written. The seven novelettes comprising this volume represent Don A. Stuart at his best.

These are stories that will be avidly read—again and again. The pages of this book will transport the reader into fabulous realms of the imagination that he will long remember. For here are such unforgettable tales as *Elimination*, wherein a machine that foretells the future is invented—to the inevitable tragedy that befalls its inventors; *Blindness*, a tale of a modern Prometheus, attempting to snatch away atomic energy from the Sun itself, returning to Earth to find that his efforts were in vain; *Twilight* and the sequel *Night*—those heroic sagas of men, who thrown forward distant eons of time, find a world that has expended its energy, its activity—its very life. And here, also, is a title story that tells of an alien monstrosity from another planet, with the terrifying ability to assume any living form, and an Antarctic expedition faced with the terrible dilemma of determining who is yet man—or monster!

**WHO GOES THERE?** is a book for the reader who wishes to escape a too-concrete world and a too-limited, matter-bound sphere wherein man must remain shackled in discontent; for such a reader these fascinating stories will be a release to an adventure in imagination.

**Heritage Comics Auctions, Dallas Signature Auction Catalog #817** Ivy Press,2005-06      **The Mechanics of Wonder** Gary Westfahl,1998-01-01 This is a sustained argument about the idea of science fiction by a renowned critic. Overturning many received opinions it is both controversial and stimulating. Much of the controversy arises from Westfahl's resurrection of Hugo Gernsback for decades a largely derided figure as the true creator of science fiction. Following an initial demolition of earlier critics Westfahl argues for Gernsback's importance. His argument is fully documented showing a much greater familiarity with early American science fiction particularly magazine fiction than previous academic critics or historians. After his initial chapters on Gernsback he examines the way in which the Gernsback tradition was adopted and modified by later magazine editors and early critics. This involves a re-evaluation of the importance of John W Campbell to the history of science fiction as well as a very interesting critique of Robert Heinlein's *Beyond the Horizon* one of the seminal texts of American science fiction. In conclusion Westfahl uses the theories of Gernsback and Campbell to develop a descriptive definition of science fiction and he explores the ramifications of that definition. *The Mechanics of Wonder* will arouse debate and force the questioning of presuppositions. No other book so closely examines the origins and development of the idea of science fiction and it will stand among a small number of crucial texts with which every science fiction scholar or prospective science fiction scholar will have to read.
