Immune conditions and autoimmune diseases are rising in our modern day world with the biggest triggers existing all around us. With an environment laden with untested and unregulated chemicals, radiation, and light and noise pollution, these immune disrupting chemicals (IDCs) trigger our bodies to go haywire and develop chronic conditions. And while variables like age, medication use, and overall health status factor into the performance of one's immune system, doctors are struggling to help their patients find livable solutions for their chronic illness. In this must-read for anyone committed to living a healthier, toxin-free life, David Perimutter MD, 1 New York Times bestselling author, Dr. Aly Cohen proposes a life-saving solution to minimizing disrupting immune system triggers and activating the body's natural detoxification systems. Using clear and accessible language, Dr. Cohen demonstrates the surprising ways in which environmental toxins impact our bodies, linking specific symptoms and illnesses to everyday exposures. You'll uncover what's lurking in our water, food, personal care products, and household goods. You'll discover simple and affordable steps to lead a more toxin-free life. **Routledge**
