Wagner-Egelhaaf,2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e g the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers The Cambridge Companion to Berg Anthony Pople,1997-04-24 The world of Alban Berg is full of paradoxes secrets and allusions but he was able to handle emotional and moral issues at a distance and with profound sympathy His unhurried almost aristocratic attitude to life and his extreme self criticism in professional matters resulted in an extraordinarily small musical output but it includes towering masterpieces such as the operas Wozzeck and Lulu and his last work the Violin Concerto All of Berg s substantial works are discussed in this Companion which brings together a team of experts who write from a variety of historical and critical perspectives outlining the place of the music in the cultural history of its time and recontextualising it against the broader twentieth century interplay of fashions aesthetics and ideas Berg Bryan R. Simms,Charlotte Erwin,2021-02-01 Alban Berg 1885 1935 a student of Arnold Schoenberg and one of the most prominent composers of the Second Viennese School is counted among the pioneers of twelve tone serialism His circle included not only the musicians of the Wiener modern but also prominent literary and artistic figures from Vienna s brilliant fin de si cle In his short lifetime he composed two ground breaking operas Wozzeck and Lulu as well as chamber works songs and symphonic compositions His final completed work the deeply moving and elegiac Violin Concerto is performed by leading soloists across the world This new life and works study from authors Bryan R Simms and Charlotte Erwin delivers a fresh perspective formed from comprehensive study of primary sources that reveal the forces that shaped Berg s personality career and artistic outlook One such force was Berg s wife Helene Nahowski Berg and the book provides a unique assessment of her role in the composer s life and work as well as her later quest to shape his artistic legacy in the forty one years of her widowhood The authors

Alma Mahler and a close friendship with her daughter Anna inspired and encouraged him in his determination to become Mahler's biographer. In 1973 the first part of the biography Mahler Volume I published in English established his reputation and already displayed the wealth of detail and meticulous coverage of all known and often hitherto unknown sources which were henceforth to characterise his work. In 1986 Henry Louis de La Grange and Maurice Fleuret founded the Bibliothéque Musicale Gustav Mahler in Paris. Thanks to its impressive and everexpanding collection of sources autographs books records scores and documents of every kind concerning not only Gustav Mahler but the whole repertory of classical music the facilities and resources the Library provides have already proved it to be an important stimulus for study and further research. The idea of compiling a Festschrift for presentation to Henry Louis de La Grange on his seventieth birthday was eagerly taken up by Mahler scholars in many countries and they have contributed essays and monographs of impressive range and profundity. This book is being published in the hope that it will prove to be not only a record of the widespread recognition of Henry Louis de La Grange's life long devotion to Mahler research but also a significant contribution on its own right to the furtherance of that research. This book contains contributions in English German and French.
