Talking at Cross-purposes Angeliki Tzanne,2000 Misunderstandings have been examined extensively in studies on cross cultural mis communication which associate them with participants differing cultural backgrounds and or linguistic knowledge Drawing on a large corpus of misunderstandings from cross and intra cultural encounters this book argues that miscommunication does not relate exclusively to participants background differences or similarities but that its creation and development are tightly interwoven with the dynamic manner in which social encounters unfold Against a backdrop of Pragmatics Conversation Analysis and Goffman s theory of frames and roles the volume discusses a large number of misunderstandings and shows that they are associated with the constant identity and activity shifts as well as with the turn by turn construction of interpretative context
