Blackfriars ,1922 Rediscovering Magical Realism in the Americas Shannin Schroeder,2004-10-30 Drawing from a variety of contemporary literature including such works as *One Hundred Years of Solitude* *Beloved* and *Like Water for Chocolate* Schroeder explores magical realism as one of many common denominators in the literature of the Americas challenging the notion that magical realism should be defined merely in terms of geography or Latin American history By relying on an all encompassing vision of this unique mode of writing the author argues that the Americas share a literary tradition and validates the North American strain of the mode In addition she points to fundamentally similar approaches to fiction that illustrate the ways in which the Americas share a common literature and calls for increased Pan American scholarship Counteracting the critical tendency to label anything unreal or supernatural in literature as magical realism Schroeder traces the mode through a variety of contemporary works including well known and lesser known examples Through a carefully articulated history and description of the mode itself she is able to show that while Latin American and North American fiction share in common certain features of magical realism their distinctive approaches to it reflect Latin America s third world concerns and North America s preoccupation with popular culture and capitalism Tracing the forces of change at work on the mode in an effort to counter the tendency among scholars to apply the label without justification this book reclaims magical realism as a current and significant term for use in its application to literary works **Light and Life** ,1887
