Alcohol And Alcohol Problems New Thinking And New Directions:

Alcohol and Alcohol Problems David Robinson, William J. Filstead, 1976 **Alcoholism Treatment in Transition** Griffith Edwards, Marcus Grant, 2023-12-01 Originally published in 1980 the purpose of this book was to aid a process of rethinking alcoholism treatment Such a process was already underway in many parts of the world at the time It was hoped that this volume would be useful in the modest role of abetting such a rethinking Alcoholism treatment was definitely in transition abandoning old certainties searching for new syntheses and that is the position this book takes looking for an alternative understanding The book is divided into six parts Transition as Challenge Does Treatment Work Towards Better Questions and Better Methodologies Treatment System as Case For Study Models in Transition and Alcohol Agendas The book also contains one chapter that discusses alcoholism treatment in a developing country not often addressed at the time but acknowledgement that the problem is a global one *The Misuse of Alcohol* Nick Heather, Ian H. Robertson, Phil Davies, 2023-12-01 In the 1980s the study of alcoholism was in a period of rapid change this book originally published in 1985 identifies and explores the three most controversial contemporary issues changes at the basic explanatory level in our concept of harmful drinking the undermining of our confidence that drinking behaviour can be effectively modified in the traditional context of treatment and the changes in our concept of the effective prevention of harmful drinking The authors of the book came from a variety of backgrounds but all were members of the New Directions in the Study of Alcohol Group They broadly reject the disease concept of alcoholism but as this volume shows there is still scope for vigorous debate and this book should have something of interest for all concerned with problems of alcoholism *Prevention of Alcohol Abuse* Peter M. Miller, Ted D. Nirenberg, 2012-12-06 The abuse of alcohol presents a major health problem throughout the world Until recently both clinical and research efforts have been geared toward treatment and rehabilitation of alcoholism With the growing number of problem drinkers entering treatment the need for a better understanding of the prevention of alcohol abuse has become increasingly evident Although still in its infancy the field of alcoholism prevention is growing at a rapid rate Increasing numbers of behavioral scientists throughout the world are conducting or planning prevention projects Policy planners school administrators military agencies community groups state and local alcoholism agencies and industries are initiating alcohol abuse prevention programs with fervor Legislators at all levels of government are also developing a keen interest in legislation aimed at reducing the extent of problem drinking This book represents one of the first systematic attempts to compile a comprehensive text on the prevention of alcohol abuse Many of the contributors to *Prevention of Alcohol Abuse* have international reputations that strengthen their understanding of the complex nature of prevention By providing a critical review of the current knowledge about prevention the text will serve to stimulate and lay the groundwork for further prevention efforts We thank all of the chapter authors for their excellent contributions It is through their efforts that the field will thrive Our appreciation also is expressed to Leonard Pace formerly of Plenum Press for his encouragement

and helpful comments in the development of the text
