

The image features a close-up, slightly angled view of the Australian national flag. The flag is predominantly blue with a white Union Jack in the upper left corner and a white seven-pointed star in the lower left. The rest of the flag is dark blue with several white stars of varying sizes. The flag is waving, creating a sense of movement. The text "Australian Bill of Rights" is overlaid in a white, serif font, centered on the flag. The word "Australian" is on the top line, "Bill" is on the second line, "of" is on the third line, and "Rights" is on the fourth line. The text is slightly shadowed to blend with the flag's texture.

*A Bill of Rights for Australia* George Williams, 2000 Using overseas examples and taking account of Australia's international treaty obligations George Williams sets out a novel plan for extending the legal protection for human rights in Australia

**No Bill of Rights for Australia** Brian Galligan, 1993 *Protecting Rights Without a Bill of Rights* Jeffrey Goldsworthy, Tom Campbell, Adrienne Stone, 2017-11-30 Australia is now the only major Anglophone country that has not adopted a Bill of Rights Since 1982 Canada New Zealand and the UK have all adopted either constitutional or statutory bills of rights Australia however continues to rely on common law statutes dealing with specific issues such as racial and sexual discrimination a generally tolerant society and a vibrant democracy This book focuses on the protection of human rights in Australia and includes international perspectives for the purpose of comparison and it provides an examination of how well Australian institutions governments legislatures courts and tribunals have performed in protecting human rights in the absence of a Bill of Rights

**Australia's First Bill of Rights** Hilary Charlesworth, Gabrielle McKinnon, 2006 Australia's first bill of rights the Australian Capital Territory's ACT Human Rights Act came into force on 1 July 2004 This paper describes the background to that Act and its operation so far and considers its value as a model for improving the protection of human rights in Australia The authors argue that the Act has had significant impact although not necessarily in the ways that either its proponents or critics predicted While legal practitioners do not yet use it regularly in the courts it is already exerting considerable influence on the workings of government and the development of new laws and policies The legislation has also revived Australian debates about bills of rights by providing a working model that allows legislatures to retain the final word about human rights protection

[Australia and the Birth of the International Bill of Human Rights, 1946-1966](#) Annemarie Devereux, 2005 *Australia and the Birth of the International Bill of Human Rights* provides the first in depth examination of Australia's first reactions to international human rights during the negotiations for the International Bill of Rights the Universal Declaration of Human Rights the ICCPR and ICESCR It follows Australian policy from 1946 the first year in which the United Nations began discussing a Bill of Rights until 1966 when the twin Covenants were finalized The book looks at what successive Australian Governments understood by human rights and how they responded to discussion of sensitive domestic topics such as immigration policies self determination for inhabitants of trust territories equal pay for men and women and balancing human rights and national security As well as considering Australian policies towards substantive rights the book looks at Australian policies towards international schemes for protecting rights including early proposals for an International Court of Human Rights and its later support for more modest technical expertise based assistance for States debates often taking place against the background of highly politicised issues such as the Cold War and the fight against apartheid In looking at this 20 year period the book demonstrates the way in which Australian policy changed substantially over time as between Labor and Liberal administrations between Ministers and bureaucrats and as between decision makers

with markedly distinct visions of the ideal relationship between citizens and a State and the individual State and the international community In highlighting the diversity of views about human rights this book thus challenges the notion that Australia has historically supported a universally understood set of human rights norms and underlines the number of variables which may be affecting ongoing implementation of human rights standards
