Airlift Doctrine:

Airlift Doctrine Charles Miller, Lt Charles E Miller, 2012-08-01 In this extremely comprehensive overview of airlift and air mobility Colonel Miller shows how the worldwide orientation of American foreign policy the numerous threats to free world interests and the speed and complexity of modern warfare have combined with political and resource constraints to produce today's airlift doctrine and force structure Airlift is the movement of goods and people to where they are needed when they are needed there Since the 1920s there has been an evolving awareness and articulation of how to best organize train and equip airlift forces for that mission The worldwide orientation of American foreign policy the numerous threats to free world interests and the speed and complexity of modern warfare have combined with political and resource constraints to produce today's airlift doctrine and force structure Colonel Miller's study traces these many interrelationships to discover what critical airlift decisions were made why they were made and what they may mean in the future Airlift is the backbone of deterrence A properly structured and equipped airlift force is critical to the successful execution of the national military strategy How we think about airlift and how we translate those thoughts into a meaningful expression of how to develop deploy and employ airlift forces is vital to the national defense Colonel Miller's study is a definitive step in that important process

Toward the Future of Theater Airlift Doctrine: Case Studies of Theater Airlift Doctrine in Operation Uphold Democracy and Operation Joint Endeavor ,1998

Recent operations in Haiti Uphold Democracy and Bosnia Joint Endeavor demonstrate continued reliance upon theater airlift to support military strategy The current doctrinal guidance for airlift operations is contained in Joint Publication 3 17 Joint Tactics Techniques and Procedures for Theater Airlift Since JP 3 17 was drafted the Air Force has been engaged in numerous major theater airlift operations Though all of these share similarities each is unique The intent of this

research is to assess the validity of current doctrine by comparing six propositions of Joint Publication 3 17 with the lessons of recent case studies Due to time and space limitations this research will focus only on the airlift operations conducted in Haiti and Bosnia These two examples represent significant variation in airlift operations to demonstrate the diversity required of joint doctrine Haiti reflects a planned large scale mass tactical airdrop launched from the United States Bosnia reflects long term employment of numerous airlift operations Lessons from both help either confirm or identify the validity of current doctrine

Air University Review ,1986-05 [Slim Chance: The Pivotal Role Of Air Mobility In The Burma Campaign](#) Major Derek M. Salmi,2015-11-06 This study applies lessons learned from air mobility s pivotal role in Field Marshal Sir William Slim s World War II Burma campaign to contemporary air mobility operations The author begins by tracing the evolution of air mobility from its pre World War I roots to the Second World War noting how its development proceeded despite the lack of coherent codified doctrine Next the author assesses Slim s Burma campaign and how the key elements of organization training and leadership apart from air mobility proved critical to Allied victory Building upon this the discussion turns to air mobility s contributions to Slim s joint campaign From this analysis the author identifies the tenets of air superiority organization and air mobility normalization as being critical and enduring airpower lessons from the Burma theater The closing chapters offer a primer on contemporary mobility operations before arguing that modern air mobility practitioners must account for five key essentials superiority across the air and space domains proper organization that promotes relationship building at the operational level of war normalization of the complete air mobility supply chain and its accompanying idea of air mobility mindedness training focused on increased interoperability and the vital role of leadership

Evolution of Airlift Doctrine Jimmie L. Jay,1977 **Theater Airlift Operations** United States. Department of the Air Force,1954 **Air Commanders** John Andreas Olsen,2012-11 This book combines short military biographies and operational analyses to reveal how the personalities attitudes and life experiences of twelve outstanding U S airmen shaped the central air campaigns in American history These case studies illuminate the character of these airmen the challenges they confronted in widely disparate armed conflicts and the solutions that they crafted and implemented Their achievements proved decisive not only in the campaigns they led but also in shaping the U S Air Force and the dominant role of airpower in modern warfare

Air Force Doctrine Document 3-17 U. S. Military,Department of Defense (DoD),World Spaceflight News,U. S. Air Force (USAF),2018-04-22 The US Air Force provides unique warfighting capabilities that are essential to joint operations Foremost among these capabilities is the ability to rapidly focus American combat power and lifesaving resources anywhere on the planet Frequently and especially in the opening stages of a conflict air and space power may be the main manifestation of combat power we bring to bear against an adversary Contents Chapter One An Introduction To Air Mobility Chapter Two Organization And Command Control C2 Chapter Three Airlift Chapter Four Air Refueling Chapter Five Air Mobility Support Chapter Six Air Mobility Planning Chapter Seven Aeromedical Evacuation Topics covered include the Air

Reserve Component ARC Civil Reserve Air Fleet CRAF Air National Guard ANG Airlift Air Refueling aeromedical evacuation Operation VITTLES Operation SWIFT FREEDOM Operation JUST CAUSE Operation ENDURING FREEDOM HUMRO Of these capabilities the Air Force provides a very singular form of power the ability to rapidly position and sustain forces at places and times of our choosing This pivotal capability air mobility is the essential ingredient for modern US expeditionary operations and supports joint force commander desired effects to deter dissuade or destroy the enemy Force projection provides for presence mass and maneuver surprise security and economy It is the sum of an impressive fleet of transport and aerial refueling aircraft underpinned by a flexible support system and operated by a specialized cadre of active duty Air Force Air Force Reserve Air National Guard and Air Force civilian personnel While other forms of American military power have some degree of inherent mobility the scale of flexibility and responsiveness of the Air Force s air mobility forces is singular in the history of world conflict We must understand and apply our doctrine in order to succeed in current and future challenges To do this smoothly and consistently our planning and employment must be clearly understood and most importantly repeatable To make that happen we have captured our best practices in doctrine documents such as this one We must learn and practice our own doctrine We must understand what it means to be an Airman and be able to articulate what air and space power and especially air mobility can bring to the joint fight Every Airman should read discuss and practice doctrine and to ensure that it adapts as necessary to remain applicable in our changing environment

Heffner, AIR COMMAND AND STAFF COLL MAXWELL AFB AL., 1987 This study investigated AirLand Battle doctrine s airlift requirements airlift capabilities to meet those requirements and the C 17 Twelve Army and Air Force staff agencies provided data regarding the global theater threat where airlift could contribute most to the support of AirLand Battle operations the AirLand Battle operation requiring the most airlift support and the most significant airlift requirements and capabilities supporting AirLand Battle doctrine execution The nine requirements and eight capabilities were the basis for recommendations to Military Airlift Command for airlift operational and C 17 doctrines that support AirLand Battle doctrine Keywords Military doctrine Airlift operations Jet transport aircraft

The Evolution of Airlift Dcotrine and Organization ,1996 As we entered World War II what little airlift doctrine existed was based largely on limited experiences Beginning with the development of airlift using balloons in the Civil War through World War I and the inter war period combat airlift and airlift doctrine was untested However many important events since caused airlift to mature and evolve the varied operations of World War II Berlin Korea Vietnam Israel Grenada Panama and the Gulf War The experiences form the basis of modern airlift doctrine Organizationally airlift has struggled through the years as the controversy over consolidation has grown Should strategic and tactical airlift be consolidated in one command or are they distinct enough that tactical theater airlift should belong to theater commanders even in peacetime The evidence including nearly 20 years of consolidation provides strong support in favor of consolidation

Despite its organizational difficulties airlift continues to do its mission and do it well Airlift doctrine was born in the second world war It was tested in battle refined in Berlin Korea Vietnam and Southwest Asia and remains with us today Whether as a tool for power projection mobility logistical support or humanitarian relief airlift remains a vital element of America s defense *U.S. Army/U.S. Air Force Doctrine for Tactical Airlift Operations* United States. Department of the Air Force,United States. Department of the Army,1967 *United States Strategic Doctrine and the Evolution of Military Airlift* John Douglas Harrington,AIR FORCE INST OF TECH WRIGHT-PATTERSON AFB OH.,1987 The purpose of airlift has been to support the deployment of Army combat forces Therefore a major allocation of Air Force resources to airlift actually would serve the purposes of the Army deployment mission rather than the traditional Air Force missions of strategic bombardment and air superiority Morton Halperin Priscilla Clapp and Arnold Kanter claim that the part of the Air force that has been least effective in challenging the dominant role of SAC is AMC charged with movement of men and material primarily for the Army This phenomenon recently received official acknowledgment in a staff report to the United States Committee on Armed Services entitled *Defense Organization The Need For Change* which stated functions i e airlift which are not central to a Service s own definition of its mission tend to be neglected SDW *USA/USAF doctrine for joint airborne and tactical airlift operations* United States. Department of the Army,1985

Enjoying the Song of Appearance: An Emotional Symphony within **Airlift Doctrine**

In a global consumed by screens and the ceaseless chatter of fast interaction, the melodic beauty and mental symphony created by the prepared term often fade in to the background, eclipsed by the relentless noise and disruptions that permeate our lives. But, located within the pages of **Airlift Doctrine** a charming literary treasure overflowing with natural emotions, lies an immersive symphony waiting to be embraced. Constructed by a masterful musician of language, this interesting masterpiece conducts readers on a psychological trip, skillfully unraveling the concealed songs and profound impact resonating within each cautiously constructed phrase. Within the depths of the moving review, we shall investigate the book is main harmonies, analyze their enthralling writing design, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
