Akira Vol 1 No 38:

Memoirs of Faculty of Technology, Tokyo Metropolitan University Tōkyō Toritsu Daigaku. Kōgakubu, 1989 **Cartels of the Mind** Ivan P. Hall, 1998 Discusses how Japan barricades itself from institutional and psychological intrusions and argues that Japan's grand intellectual parsimony is not worthy of world economic power The Japan Medical World, 1925 **The Official Overstreet Comic Book Companion, 11th Edition** Robert M. Overstreet, 2010 Describes and lists the values of popular collectible comics and graphic novels issued from the 1950s to today providing tips on buying collecting selling grading and caring for comics and including a section on related toys and rings *Japan's Holocaust* Bryan Mark Rigg, 2024-03-19 Japan's Holocaust is a comprehensive exploration of Japan's mass murder and sexual crimes during the Pacific and Asian Wars from 1927 to 1945 Japan's Holocaust combines research conducted in over eighteen research facilities in five nations to explore Imperial Japan's atrocities from 1927 to 1945 during its military expansions and reckless campaigns throughout Asia and the Pacific This book brings together the most recent scholarship and new primary research to ascertain that Japan claimed a minimum of thirty million lives slaughtering far more than Hitler's Nazi Germany Japan's Holocaust shows that Emperor Hirohito not only knew about the atrocities his legions committed but actually ordered them He did nothing to stop them when they exceeded even the most depraved person's imagination as illustrated during the Rape of Nanking as well as many other events Japan's Holocaust will document in painful detail that the Rape of Nanking was not an isolated event during the Asian War but rather representative of how Japan behaved for all its campaigns throughout Asia and the Pacific from 1927 to 1945 Mass murder rape and economic exploitation was Japan's modus operandi during this time period and whereas Hitler's SS Death's Head outfits attempted to hide their atrocities Hirohito's legions committed their atrocities out in the open with fanfare and enthusiasm Moreover whereas Germany has done much since World War II to atone for its crimes and to document them Japan has been absolutely disgraceful with its reparations for its crimes and in its efforts to educate its population about its wartime past Shockingly Japan continues in general to glorify its criminals and its wartime past *The Journal of the Association of Teachers of Japanese*, 1972 Management of Technology and Innovation in Japan Cornelius Herstatt, Christoph Stockstrom, Hugo Tschirky, Akio Nagahira, 2006-02-23 What Makes this Book Unique No crystal ball is required to safely predict that in the future even more than in the past mastered innovativeness will be a primary criterion distinguishing successful from unsuccessful companies At the latest since Michael Porter's study on the competitiveness of nations the same criterion holds even for the evaluation of entire countries and national economies Despite the innumerable number of publications and recommendations on innovation competitive innovativeness is still a rare competency The latest publication of UNICEF the European Industry Organization representing 20 million large midsize and small companies speaks a clear language Europe qualifies to roughly 60% 70% of the innovation strength of the US Japan The record unemployment in many EU countries does not contradict this message A main reason may

be given by the fact that becoming an innovative organization means increased openness towards the new and more tolerance towards risks and failures both challenging the inherently difficult management art of cultural change Further lacking innovativeness is often related to legal and fiscal barriers which rather hinder than foster innovative activities Yet another reason to explain Europe's notorious innovation gap refers to insufficient financial R D resources on the company as well as on the national level As a result for example high ranking decisions on the level of the European Commission are taken to increase R D expenditures in the European Union from roughly 2% to 3% of GNP

Chinese Capitalists in Japan's New Order Parks Coble,2003-04-01 In this probing and original study Parks M Coble examines the devastating impact of Japan's invasion and occupation of the lower Yangzi on China's emerging modern business community Arguing that the war gravely weakened Chinese capitalists Coble demonstrates that in occupied areas the activities of businessmen were closer to collaboration than to heroic resistance He shows how the war left an important imprint on the structure and culture of Chinese business enterprise by encouraging those traits that had allowed it to survive in uncertain and dangerous times Although historical memory emphasizes the entrepreneurs who followed the Nationalists armies to the interior most Chinese businessmen remained in the lower Yangzi area If they wished to retain any ownership of their enterprises they were forced to collaborate with the Japanese and the Wang Jingwei regime in Nanjing Characteristics of business in the decades prior to the war including a preference for family firms and reluctance to become public corporations distrust of government opacity of business practices and reliance of personal connections guanxi were critical to the survival of enterprises during the war and were reinforced by the war experience Through consideration of the broader implications of the many responses to this complex era Chinese Capitalists in Japan's New Order makes a substantial contribution to larger discussions of the dynamics of World War II and of Chinese business culture
