Christopher Lloyd Stephen Anderton,2010-03-04 Christopher Lloyd Christo was one of the greatest English gardeners of the twentieth century perhaps the finest plantsman of them all His creation is the garden at Great Dixter in East Sussex and it is a tribute to his vision and achievement that after his death in 2006 the Heritage Lottery Fund made a grant of 4 million to help preserve it for the nation This enjoyable and revealing book the first biography of Christo is also the story of Dixter from 1910 to 2006 a unique unbroken history of one English house and one English garden spanning a century It was Christo s father Nathaniel who bought the medieval manor at Dixter and called in the fashionable Edwardian architect Lutyens to rebuild the house and lay out the garden And it was his mother Daisy who made the first wild garden in the meadows there Christo was born at Dixter in 1921 Apart from boarding school war service and a period at horticultural college he spent his whole life there constantly re planting and enriching the garden while turning out landmark books and exhaustive journalism Opinionated argumentative and gloriously eccentric he changed the face of English gardening through his passions for meadow gardening dazzling colours and thorough husbandry As the baby of a family of six five boys and a girl Christo was stifled by his adoring mother Music loving and sports hating he knew the Latin names of plants before he was eight This fascinating book reveals what made Christo tick by examining his relationships with his generous but scheming mother his like minded friends such as gardeners Anna Pavord and Beth Chatto and his colleagues including his head gardener Fergus Garrett a plantsman in Christo s own mould **Herbaceous Perennials Production** Leonard P.

Perry,1998 *The Hardy Plant* ,2000 **Growing Hardy Perennials** Kenneth A. Beckett,1981 *Manual of Herbaceous Ornamental Plants* Steven M. Still,1994 PREFACE This text provides information about common and uncommon annuals biennials perennials bulbs ornamental grasses herbs and hardy ferns that are adapted to most climates of the United States and Canada The fourth edition is larger than the previous edition and I expect that a future edition will be even larger The learning process of a plantsman is a life long endeavor and I will continue to discover new plants in my travels The idea for this text started developing when I was a student in a herbaceous plants course at the University of Illinois At that time I realized that there was no one text that included identification characteristics and the ornamental and cultural features

necessary to obtain a complete understanding of the subject This idea was further reinforced when I became an instructor of herbaceous plants at Kansas State University I found it impossible to recommend any one book for student use because each had its advantages and disadvantages This text provides the student the professional and the home gardener with illustrations and concise treatment of plant information I have had an opportunity to travel extensively in the United States Canada Europe and Great Britain Information gained in these travels has been incorporated in this expanded fourth edition There are over 120 new plant descriptions and now a total of 384 color photos Wildflowers and herbs are two examples of plant groups where coverage has been expanded Since the printing of the third edition of the Manual of Herbaceous Ornamental Plants I have received many helpful suggestions of how this text could be enhanced I am indebted to those individuals who took time to contact me with their suggestions I have assimilated their comments and incorporated them in the fourth edition The art work for the fourth edition was done by Lynda Chandler Perennials and Their Uses ,1978
