Voices from the North

EDITED BY
ANNE HANLEY AND CAROLYN KREMERS

Alaska Reader Voices From The North

Anne Hanley, Carolyn Kremers

Alaska Reader Voices From The North:

The Alaska Reader Anne Hanley, Carolyn Kremers, 2005 More than 13 million people visit Alaska each year to experience its unique history abundant wildlife diverse cultures and natural beauty This book enriches that experience Here is a collection of authentic voices oral and written that depicts Alaska with intelligence integrity and authenticity Encompassing classic and contemporary writers and storytellers established and new insiders and outsiders this anthology includes fiction nonfiction poetry and oral tradition Several books that have recently gained national attention are highlighted Seth Kantner's *Ordinary Wolves* Marjo A Companion to the Literature and Culture of the American West Nicolas S. Witschi, 2014-02-03 A Companion to the Literature and Culture of the American West presents a series of essays that explore the historic and contemporary cultural expressions rooted in America's western states Offers a comprehensive approach to the wide range of cultural expressions originating in the west Focuses on the intersections complexities and challenges found within and between the different historical and cultural groups that define the west's various distinctive regions Addresses traditionally familiar icons and ideas about the west such as cowboys wide open spaces and violence and their intersections with urbanization and other regional complexities Features essays written by many of the leading scholars in western American cultural studies

The Polar Regions Adrian Howkins, 2015-11-20 The environmental histories of the Arctic and Antarctica are characterised by contrast and contradiction These are places that have witnessed some of the worst environmental degradation in recent history But they are also the locations of some of the most farsighted measures of environmental protection They are places where people have sought to conquer nature through exploration and economic development but in many ways they remain wild and untamed They are the coldest places on Earth yet have come to occupy an important role in the science and politics of global warming Despite being located at opposite ends of the planet and being significantly different in many ways Adrian Howkins argues that the environmental histories of the Arctic and Antarctica share much in common and have often been closely connected This book also argues that the Polar Regions are strongly linked to the rest of the world both through physical processes and through intellectual and political themes As places of inherent contradiction the Polar Regions have much to contribute to the way we think about environmental history and the environment more generally

Encyclopedia of Environment and Society Paul Robbins, 2007-08-27 As befits the topic this beautifully packaged wonderfully illustrated interdisciplinary resource has more than 1200 entries written by specialists A helpful reader's guide groups topics like agriculture conservation and ecology movements and regulations politics pollution and society A resource guide chronology glossary and list of the UN's economic indicators complete the set Library Journal this important work gives a well focused snapshot of environmentalism in the early 21st Century and it will remain valuable into the future both for its content and as a yardstick to measure progress toward sustainability and conservation Summing Up Recommended Undergraduates and general readers CHOICE Booklist Editors Choice 2008 This superb interdisciplinary

work should find a place on the shelves of every public and academic library that has the least bit of interest in environment issues which should mean just about all Booklist Starred Review Where does the environment leave off and society begin When expanding production and consumption drives greenhouse gas emissions that warm the planet which in turn influence the conditions of economic expansion it is unclear where the climate ends and the economy begins This fact is not new to our era however our social and natural sciences have only recently come to grips with the incredible complexity of the world described by understanding the environment and society as being of a piece As a result in the last decade there has been an unprecedented explosion of new concepts theories facts and techniques that follow from such an understanding The Encyclopedia of Environment and Society brings together multiplying issues concepts theories examples problems and policies with the goal of clearly explicating an emerging way of thinking about people and nature With more than 1 200 entries written by experts from incredibly diverse fields this innovative resource is a first step toward diving into the deep pool of emerging knowledge The five volumes of this Encyclopedia represent more than a catalogue of terms Rather they capture the spirit of the moment a fascinating time when global warming and genetic engineering represent only two of the most obvious examples of socio environmental issues Key Features Examines many new ideas about how the world works what creates the daunting problems of our time and how such issues might be addressed whether by regulation markets or new ethics Demonstrates how theories of environmental management based on market efficiency may not be easily reconciled with those that focus on population and both may certainly diverge from those centering on ethics justice or labor Offers contributions from experts in their fields of specialty including geographers political scientists chemists anthropologists medical practitioners development experts and sociologists among many others Explores the emerging socio environmental problems that we face in the next century as well as the shifting and expanding theoretical tools available for tackling these problems Covers regions of North America in greater detail but also provides a comprehensive picture that approaches as effectively as possible a cohesive global vision Key Themes Agriculture Animals Biology and Chemistry Climate Conservation and Ecology Countries Geography History Movements and Regulations Organizations People Politics Pollution Society Packed with essential and up to date information on the state of the global socio environment the Encyclopedia of Environment and Society is a time capsule of its historic moment and a record of where we stand at the start of the 21st century making it a must have resource for any library These inspiring volumes provide an opportunity for more new ways of thinking behaving and living in a more than human world *The Season of Birds and Stones* Yelizaveta P. Renfro, 2026-03-15 The essays that make up *The Season of Birds and Stones* grapple with questions of what wilderness means and how we can interact with and learn from other species Set in some of our most stunning public lands including Denali National Park and Preserve Great Basin National Park Isle Royale National Park and Porcupine Mountains Wilderness State Park Renfro s essays examine her encounters with bears arctic ground squirrels loons red winged blackbirds moose

and wolves as she wrestles with a range of subjects including motherhood mental illness grief and darkness Whether focusing on bears in Alaska or the darkness of the Upper Peninsula searching for moose bones on Isle Royale or seeking out her past self in the landscape of Great Basin her essays are rooted in the natural world but also in storytelling the stories we tell about ourselves the stories we tell about others and the stories we tell about other species Both deeply personal and meticulously researched Renfro s essays seek to illuminate the natural world and show its deep relevance and resonance in all of our lives

International Journal of Wilderness ,2004 **Masonic Voice and Review** ,1925 **Arnold's geography readers** Matthew Thompson Yates,1893 Arnold's Scottish geography readers Edward Arnold & Co,1899

Our Voices James Ruppert,John W. Bernet,2001-01-01 Storytelling is an important vibrant tradition among the Native peoples of the Far North especially in the Athabaskan communities of interior Alaska and the Yukon Territory Here for the first time is an anthology of the best stories that Athabaskan speakers tell about themselves their communities and the cold beautiful world of the Far North Showcased are twenty accomplished Native storytellers recognized as masters by their people who come from the Deg Hit an Koyukon Gwich in Northern and Southern Tutchone Kaska Tagish Upper and Lower Tanana Tanacross Upper Kuskokwim Dena ina Ahtna and Eyak communities Men and women young and old recount popular tales of legendary times such as how Raven Shaped the World They also share meaningful sometimes intimate stories about their own lives their families or the history of their people These evocative wonderfully crafted stories are a literary treasure trove entertaining enchanting and offering an unforgettable glimpse of the Native peoples who live under the bright lights of the Far North *Facts about the States* Joseph Nathan Kane,Steven Anzovin,Janet Podell,1989 A compendium of useful information on the fifty states including facts about Puerto Rico and Washington D C **Southern Observer** ,1959
