European and American modern art during the first half of the twentieth century Haunted Visions Charles Colbert, 2011-05-10 Spiritualism emerged in western New York in 1848 and soon achieved a wide following due to its claim that the living could commune with the dead In Haunted Visions Spiritualism and American Art Charles Colbert focuses on the ways Spiritualism imbued the making and viewing of art with religious meaning and in doing so draws fascinating connections between art and faith in the Victorian age Examining the work of such well known American artists as James Abbott McNeill Whistler William Sydney Mount and Robert Henri Colbert demonstrates that Spiritualism played a critical role in the evolution of modern attitudes toward creativity He argues that Spiritualism made a singular contribution to the sanctification of art that occurred in the latter half of the nineteenth century The faith maintained that spiritual energies could reside in objects and thus works of art could be appreciated not only for what they illustrated but also as vessels of the psychic vibrations their creators impressed into them Such beliefs sanctified both the making and collecting of art in an era when Darwinism and Positivism were increasingly disenchanting the world and the efforts to represent it In this context Spiritualism endowed the artist s profession with the prestige of a religious calling in doing so it sought not to replace religion with art but to make art a site where religion happened **New York Magazine** , 1989-12-18 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **For America** Jeremiah William McCarthy, Diana Thompson, 2019-01-01 Featuring paintings by American icons like Winslow Homer and Thomas Eakins this book illustrates the ways American artists have viewed themselves their peers and their painted worlds over 200 years
