[Witches of the North](#) Liv Helene Willumsen, 2013-06-13 Witches of the North Scotland and

Finnmark is a comparative study of witchcraft persecution in Scotland and Finnmark Norway. A wide range of quantitative and qualitative analyses based mainly on legal documents shed light on the witch hunts in the two regions during the seventeenth century. Statistical analyses give information about tendencies in the source material in total. The qualitative chapters contain close readings of trial documents wherein the various voices heard during a trial are analysed: the voice of the scribe, the voice of the law, the voice of the accused person and the voices of the witnesses. The analyses combined provide a broad view of the historical phenomenon in question as well as in depth studies of individual witchcraft cases. Historical Sociology and Eastern European Development Arne Kommissrud, 2009-06-16. An innovator in theoretical approaches in the social sciences, Stein Rokkan developed general models, developmental models and conceptual maps that specified the main variables and important relationships in European political history. In *Historical Sociology*, Arne Kommissrud tests these general hypotheses against specific historical and regional contexts. He uses the case of Eastern Europe after the downfall of the Berlin Wall to extend the geography of the model's range and introduces possibilities for theoretical modification through an analysis of sequential interactions. Covering a period from the Middle Ages through the 1990s and addressing phenomena overlooked by Rokkan such as statebuilding and nationalism, this book demonstrates that Rokkan's models continue to be relevant to modern political science and sociology. Kommissrud's study is a valuable contribution to Rokkanian approaches and the understanding of Eastern European development within the historical and geographic context of Europe as a whole.

**Does War Make States?** Lars Bo Kaspersen, Jeppe Strandsbjerg, 2017-03-02. This engaging volume scrutinises the causal relationship between warfare and state formation using Charles Tilly's work as a foundation. *Soft Power* Hendrik W. Ohnesorge, 2019-11-22. This book explores the phenomenon of soft power in international relations. In the context of current discourses on power and global power shifts, it puts forward a comprehensive taxonomy of soft power and outlines a methodological roadmap for its empirical study. To that end, the book classifies soft power into distinct components: resources, instruments, reception and outcomes, and identifies relevant indicators for each of these categories. Moreover, the book integrates previously neglected aspects into the concept of soft power, including the significance of political personalities. A broad range of historical examples is drawn upon to illustrate the effects of soft power in international relations in an innovative and analytically differentiated way. A central methodological contribution of this book consists in highlighting the value of comparative historical analysis (CHA) as a promising approach for empirical analyses of the soft power of different actors on the international stage. By introducing a comprehensive taxonomy of soft power, the book offers an innovative and substantiated perspective on a pivotal phenomenon in today's international relations. As the forces of attraction in world politics continue to gain in importance, it provides a valuable asset for a broad readership. This book was the winner of the 2021 ifa German Institute for Foreign Cultural Relations Research Award on Foreign Cultural Policy. In this important and thoughtful book, Hendrik Ohnesorge explains and advances our knowledge of the ways that soft power, public diplomacy and

charismatic personal diplomacy are shaping the international relations of our global information age Joseph S Nye Jr Harvard University and author of *The Future of Power*      **Theory and Methodology of World Development** S. Chew,P.

Hall,1989      The State in the Modernization Process Thorvald Gran,1994      Understanding Nationalism Birgir Hermannsson,2005 Abstract en This dissertation is an attempt to understand nationalism in a general sense and Icelandic nationalism in particular For this purpose the concepts of ideology political culture discourse and political language are pushed to the forefront as viable analytical tools to take on the difficult phenomena of nationalism It is argued that this perspective is useful in conceptualizing and studying nationalism Moreover it serves both as a benchmark to evaluate the theoretical field as well as guiding the empirical study There is no consensus on either the correct definition of nationalism or the proper theoretical approach to study it This is a result of the highly contested nature of nationalism and the politically infused character of all attempts to define it Both the subject the scholar and the object nationalism are part of changing historical circumstances which make all attempts to objectify nationalism fruitless as well as making our understanding conditional The problematic of the influential modernist school namely state formation democratic rule and economic transformation is accepted as crucial for our understanding of nationalism Its understanding of culture and ideology is

however shown to be too instrumental and elitists Cultural production and reception must be given greater prominence The role of external models and the problem of imitation are clearly important for the intellectual mobilization of nationalism The desired model for imitation is not accepted unchanged but must in some way be adapted to the prevailing traditions or conventions of the adapting country **Constructing the UAW Dodge Local 3** Mark Steven Freyberg,1995
