Tourism And China's Development- Policies, Regional Economic Growth & Ecotourism Clement A Tisdell,Julie Jie Wen,2001-03-15 China s continuing economic reforms since 1978 have substantially altered its economic structure expanding the service sector including the tourist industry The reforms have resulted in spectacular economic growth and a boom in tourism development But China s economic growth has been very uneven regionally and has been cause for political concern The ability of tourism to counteract this uneven development and promote regionally decentralised development is therefore of special interest as is the sustainability of

regional tourism which often depends on nature conservation and the presence of minority cultures This book addresses all those issues Although focussed on China it deals with issues such as those involving the sustainability of tourism and convergence and divergence in regional tourism development and economic growth relevant to other geographical areas

Economic Development in Ghana and Malaysia Samuel K. Andoh,Bernice J. deGannes Scott,Grace Ofori-Abebrese,2020-02-05 Economic Development in Ghana and Malaysia investigates why two countries that appeared to be at more or less the same stage of economic development at one point in time have diverged so substantially At the time of their independence from the UK in 1957 both Ghana and Malaysia were at roughly the same stage of economic development in fact Ghana s real per capita income was slightly ahead of Malaysia s Since then Ghana s development has been sluggish while Malaysia s economy has taken off into sustained growth and today the real per capita income of Malaysia is about five times that of Ghana This volume examines the pre colonial and colonial economies of both countries and the economic policies pursued after independence In doing so it aims to identify policies which might have contributed to Malaysia s development and those which might have slowed Ghana s The authors ask whether lessons can be learned from the successes of countries such as Malaysia This detailed comparative analysis will be useful to students and researchers of development economics as well as public policy makers in developing countries It is written in language which makes it accessible to the general reader
