Devil Himself The Mutiny Of 1800:

The Devil Himself Dudley Pope,2003-05-01 The French corvette La Vaillante built in 1796 was captured and renamed Danae by the British Royal Navy in 1798 Two years later she was returned to France in an amazing fashion her British crew mutinied sailed the Danae to France and turned her over to the enemy for a cash reward Accurate fair thorough and lively this penetrating account of a mutiny and its aftermath is compiled from contemporary British documents and the dusty French naval archives Dudley Pope describes the men the ship and the tragic chain of events following their capture by a press gang bringing this extraordinary 1800 mutiny to life and chronicling those who survived hanged or died disgraced in a far off colonial posting This history is also significant in that it inspired Pope to try his hand at fiction resulting in the Lord Ramage novels The historical figures and events found in this true story are the basis for some of the favorite fictional characters and plot elements in Pope s novels   The Birth of the Royal Marines, 1664-1802 Britt Zerbe,2013 The book highlights especially the Marines roles as guards against mutiny and desertion and as an imperial rapid reaction force and provides details of the many and varied actions in which they were involved worldwide   *Ramage at Trafalgar* Dudley Pope,2002-09-01 Ramage finally reunited with his beloved Sarah hopes to spend at least a few quiet weeks with her Instead he is summoned by Admiral Nelson himself His orders Ramage is to join Nelson s fleet blockading the combined French and Spanish navies in the port of Cadiz But Nelson s plan is not merely to blockade the enemy s fleet He intends to confront it head on in the biggest naval battle the world has ever seen   Ramage's Signal Dudley Pope,2001-10-01 The Calypso and her captain Lord Nicholas Ramage venture further into the French dominated waters of the Mediterranean on an Admiralty mission to sink burn and destroy Aiming to confuse and distract the enemy Ramage and his men find themselves isolated and outnumbered as they take on the might of Napoleon s fleet   **Durban 1942** G. R. Rubin,1992-01-01 On 13 January 1942 hundreds of army and air force servicemen due to sail from Durban on the British troopship City of Canterbury refused to board the vessel in defiance of their commanders and of the British Military and Naval authorities in South Africa Gerry Rubin sees this unusual and dramatic incident in the round Besides examining the legal case itself its precedents and its outcome he looks at both the human factors involved and at the wider background In so doing he deals with a little mentioned aspect of the war but one familiar to hundreds of thousands of servicemen the journey by troopship via the Cape to the Middle and Far East   English/British Naval History to 1815 Eugene L. Rasor,2004-10-30 The English British have always been known as the sailor race with hearts of oak the Royal Navy as the Senior Service and First Line of Defense It facilitated the motto The sun never set on the British Empire The Royal Navy has exerted a powerful influence on Great Britain its Empire Europe and ultimately the world This superior annotated bibliography supplies entries that explore the influence of the English British Navy through its history This survey will provide a major reference guide for students and scholars at all levels It incorporates evaluative qualitative and critical analysis processes the essence of historical scholarship

Each one of the 4 124 annotated entries is evaluated assessed analyzed integrated and incorporated into the historiographical scholarship **The Eighteenth Century** ,1974 **Language, Labour and Migration** Anne J. Kershen,2017-07-05 Language Labour and Migration explores two fundamental aspects of the migrant experience through a multi disciplinary lens which combines the research of leading academics at the cutting edge of their fields This latest volume from the centre for the Study of Migration brings together the work of anthropologists economists geographers historians political scientists and medical practitioners Essays explore topics which include the role of mother tongue as a bridge to assimilation the racialization of immigrants and refugees through language the patterns of resistance undertaken by lascars the experience of black British seamen in the eighteenth century health advocacy in the twentieth century and the way in which cyber space is being used to rediscover ethnic identity in the twenty first century Other essays examine Chinese labour in France during the First world war employment opportunities for those deficient in the majority language and poverty in old age All provide new and at times controversial insights into the problems of language and labour in an alien society

The Seaforth Bibliography Eugene Rasor,2009-04-17 This remarkable work is a comprehensive historiographical and bibliographical survey of the most important scholarly and printed materials about the naval and maritime history of England and Great Britain from the earliest times to 1815 More than 4 000 popular standard and official histories important articles in journals and periodicals anthologies conference symposium and seminar papers guides documents and doctoral theses are covered so that the emphasis is the broadest possible But the work is far far more than a listing The works are all evaluated assessed and analysed and then integrated into an historical narrative that makes the book a hugely useful reference work for student scholar and enthusiast alike It is divided into twenty one chapters which cover resource centres significant naval writers pre eminent and general histories the chronological periods from Julius Caesar through the Vikings Tudors and Stuarts to Nelson and Bligh major naval personalities warships piracy strategy and tactics exploration discovery and navigation archaeology and even naval fiction Quite simply no one with an interest and enthusiasm for naval history can afford to be without this book at their side **The Journal of Military History** ,1999 The Mariner's Mirror Leonard George Carr Laughton,Roger Charles Anderson,William Gordon Perrin,1988 *The American Neptune* ,1990 A quarterly journal of maritime history **The Star Captains** Tom Wareham,2001 This is the first book to look at the nature of frigate command to ask important questions about how and why such officers were appointed what was expected of them and how they were rewarded The picture that emerges is one of conscious selection and fast track promotion not merely young men serving an apprenticeship before moving on to the command of a battleship but a real elite with specific and highly prized skills For the first time it reveals that the romanticised image portrayed in the novels of C S Forester and Patrick O Brian was indeed close to the truth frigate captains were outstanding officers whose careers followed separate paths from their less talented contemporaries As such this is a major contribution to the broader understanding of the workings of Nelson s navy
