Devolution Or Federalism? Sir Bernard Burrows, Geoffrey R. Denton, 1980 **Devolution or Federalism** Bernard Burrows, Geoffrey Denton, 1980-09-01 **The Dreadful Monster and its Poor Relations** Julian Hoppit, 2021-05-27 An invaluable primer to some of the underlying tensions behind contemporary political debate Financial Times It has always been an important part of British self image to see the United Kingdom as an ancient organic and sensibly managed place in striking contrast to the convulsions of other European countries Yet as Julian Hoppit makes clear in this fascinating and surprising book beneath the complacent surface the United Kingdom has in fact been in a constant often very tense argument with itself about how it should be run and most significantly who should pay for what The book takes its argument from an eighteenth century cartoon which shows the central state as the Dreadful Monster gorging itself at the dinner table on all the taxes it can grab Meanwhile the Poor Relations Scotland Wales and Ireland both poor because of tax but also poor in the sense of needing special treatment are viewed in London as an endless drain on the state With drastically different levels of prosperity population industry agriculture and accessibility between the United Kingdom s different nations what is a fair basis for paying for the state *Environmental Taxation Law* John Snape, Jeremy de Souza, 2016-05-06 The theoretical arguments for environmental taxes and other types of economic instruments for environmental protection have been discussed extensively in the literature Rather less well discussed has been the extremely complex form that such instruments have in fact taken in practice *Environmental Taxation Law Policy Contexts and Practice* examines the legal implications of introducing environmental taxes and other economic instruments into the regulatory framework of UK law In doing so it analyzes and explains the difficulties of grafting environmental taxes onto the complexities of existing regulatory structures not all of which of course were originally devised with environmental considerations in mind Although the focus of the book is the UK s pioneering implementation of a web of distinct yet interrelated policy measures it locates the UK s taxes and instruments not simply in their broader context of market and environmental regulation but also in the contexts of European and international law **Federal Britain** John Kendle, 1997 John Kendle examines the break up of the first British empire and the development of modern federalism including such topical issues as the Anglo Irish relationship the United Kingdom s relationship to Europe and devolution *British Government and Politics* Robert Malcolm Punnett, 1994 This text is intended for students concerned with the institutions of British government This edition has been thoroughly revised to provide a comprehensive up to date account of the many facets of British government and politics in the 1990s **European Unity and World Order** John Pinder, 1995 The Federal Trust has played a seminal role in the development of Britain s European policy This book marks the 50th anniversary of the Trust tracing its history and progress during the foundation of the European Community in the 1950s and the struggle for European liberal democracy *Planning in a Global Era* Andy Thornley, Yvonne Rydin, 2002 Globalization was the buzzword of the last decade Advances in communication technology

computing and air travel clearly have a significance on planning an activity which has been concerned with controlling and shaping the use of space This outstanding volume brings together contributions from across the world in order to address some of the questions that arise from such global changes **Scotland's Choices** Iain McLean,2014-05-30 Scotland s Choices now fully revised for the critical last few months before the referendum explains the choice that Scotland will have to make in September 2014 The authors clearly explain the issues and how each of the options would be put into place

Handbook of Federal Countries ,2002 **Creating Connections** American Association of Law Libraries.

Meeting,2002 *Regionalism in Europe* Janusz Śługocki,1993 **Regulating Pollution** Chris Hilson,2000-07-10 This book aims to provide a comprehensive picture of UK and EC pollution regulation Although written by a lawyer it adopts an interdisciplinary approach to regulation which seeks to move beyond the sociological and economic frameworks within which pollution regulation has typically been analysed in the UK The UK and EC regulatory systems are examined within the context of regulatory federalism The aim of this is to explore how and why regulatory decisions concerning pollution are taken at different levels of a federal regulatory hierarchy The book begins with a discussion of the essentials of pollution regulation including traditional economic justifications for regulation and non economic ones based on environmental ethics It goes on to examine subsidiarity and the appropriate level for regulation a particularly topical issue in the light of recent devolution within the UK Models of regulatory decision making are then addressed comparing the rigours of ecologism with the cost benefit based alternative of economism and the more participatory style of republicanism Other chapters include a comparison of the various regulatory techniques in terms of the values of accountability equality certainty efficiency and effectiveness and an examination of regulatory enforcement covering issues such as accountability for enforcement decisions corporate liability strict liability and a critical analysis of the so called co operative approach CONTENTS 1 Regulatory Essentials 2 Privatisation Liberalisation and Deregulation 3 Choosing the Level Regulation and Federalism 4 The Institutional Legitimacy of Pollution Regulation 5 Deciding Regulatory Goals 6 Regulatory Techniques 7 Enforcement I Enforcing National Command and control 8 Enforcement II Enforcing EC Regulation and Alternative Instruments 9 Pollution Regulation and Growth **Regional Development and the Local Community** Clyde Weaver,1984-11-08 A comprehensive critical history of regional planning in France Britain and the United States beginning with the emergence of regional planning during the late nineteenth century Relates regional planning to the general evolution of social science and analyzes its development in the context of social theory economic and political conditions and societal change British Regionalism, 1900-2000 Patricia L. Garside,Michael Hebbert,1989 Ten essays by scholars of political science geography urban planning and history trace the evolution of regional decentralization as a reform movement including the literature organizations personalities and encounters with the entrenched politics of both the central and local governments They discuss the contexts of possible Scottish and Welsh devolution and of the emerging supranationalist and regionalist tendencies of the European Community
