Devon Clocks And Clockmakers:

Devon Clocks and Clockmakers Clive N. Ponsford,1985-01-01 **Cornish Clocks and Clockmakers** Howard Miles Brown,1961 **The Wetherfield Collection of Clocks** Eric Bruton,1981 Devon's Torre Abbey Dr Michael Rhodes,2015-05-04 Torre Abbey is an archaeological site of national importance Founded in 1196 it became the wealthiest English monastery of the order of Premonstratensian canons The extent of its survival makes Torre Abbey the best preserved medieval abbey in Devon and Cornwall After King Henry VIII closed the monastery in 1539 two of its former ranges were adapted for use as a private house From 1662 this house became the home of the Roman Catholic Cary family who lived there for nearly 300 years The story of Torre Abbey mirrors in a remarkable way the story of English Catholics during the years of the penal laws The local council acquired Torre Abbey in 1930 and adapted it for use as an art gallery and Mayor s Parlour Today the abbey provides an ideal setting for Torbay s collection of paintings and antiques most of which have been donated by local people It has recently been restored and modernised This book is the first complete history of Torre Abbey It is based on the latest historical and architectural research and is richly illustrated throughout Bedfordshire Clock & Watchmakers, 1352-1880 Chris Pickford,1991 The dictionary is preceded by an introduction on timekeeping and the history of clock and watchmaking in Bedfordshire Extracts are included from a selection of documents to illustrate the sources used in compiling the dictionary They range over advertisements Bedfordshire Quarter Sessions records bills and customers financial accounts churchwardens accounts clubs insurance records and settlement examinations The biographical dictionary provides family details apprenticeships places of work and examples of the person s work amongst much other information Here will be found information about Thomas Tompion from Northill widely regarded as the greatest English clockmaker Appendices list the places of work in Bedfordshire and neighbouring counties of clock and watchmakers with a map and of apprentices to the trade 1631 1881 *Time: A Bibliographic Guide* Samuel L. Macey,2018-10-10 Originally published in 1991 A multidisciplinary guide in the form of a bibliography of selected time related books and articles divided into 25 existing academic disciplines and about 100 subdisciplines which have a wide application to time studies **A General History of Horology** Anthony Turner,James Nye,Jonathan Betts,2022-07-28 A General History of Horology describes instruments used for the finding and measurement of time from Antiquity to the 21st century In geographical scope it ranges from East Asia to the Americas The instruments described are set in their technical and social contexts and there is also discussion of the literature the historiography and the collecting of the subject The book features the use of case studies to represent larger topics that cannot be completely covered in a single book The international body of authors have endeavoured to offer a fully world wide survey accessible to students historians collectors and the general reader based on a firm understanding of the technical basis of the subject At the same time as the work offers a synthesis of current knowledge of the subject it also incorporates the results of some fundamental new and original research **Victorian Clocks** Richard

Good,1996 Illustrated throughout this is a comprehensive and detailed study of the many types of Victorian clock ideal for the collector student or anyone with an interest in clocks **John Channon and Brass-inlaid Furniture, 1730-1760**
Christopher Gilbert,Tessa Murdoch,Victoria and Albert Museum,1993-01-01 A reinvestigation of brass inlaid furniture made between 1730 1760 usually attributed to the Channon workshop Research indicates that there were five London cabinet makers specializing in this furniture This is the catalogue for an exhibition in Leeds on 22nd September 1993 and later in London **Watch and Clock Makers in the City of Bath** Ian White,1996 **Brass Dial Clocks** Brian Loomes,1998 This important new title discusses the origins style and development of domestic brass dial clocks made between the early seventeenth and the end of the eighteenth centuries The book provides a detailed examination of eight day and thirty hour clocks with hundreds of illustrated examples of longcase bracket lantern derivatives hook and spike and hooded clocks It examines the development and distribution of each with a complete re examination of prototype thirty hour clockwork and the work of clocksmiths with a detailed discussion on the recognition of styles of the various regions countries Some of these aspects are discussed here for the first time This new title will have a wide appeal as the author assumes no prior knowledge of the subject from his reader and concerns himself exclusively with a discussion of accessible clocks not the rare museum pieces so often featured in other horological publications He concentrates mainly on regional types but also includes a very small number of London clocks in order that comparisons may be made and uses examples from all over Britain including Scotland and Ireland and many from America **Devon Notes and Queries** ,1905 Railway Clocks Ian P. Lyman,2004
With over 700 examples this work provides an illustrated history of clocks made for use on the railways of England Scotland and Wales **British Clockmakers & Watchmakers Apprentice Records** ,2003 This work contains the apprenticeship detail of over 14 000 clockmakers watchmakers and others involved in the horological trade listed under both the apprentice and his master extracted from tax records in the Public Record Office *Chats on Old Clocks* Arthur Hayden,1918
