## **Diagnostico Cancer Mi Lucha Por La Vida:**

**Diagnóstico**, 2004 *Diagnóstico:cáncer. Mi lucha por la vida* Mariam Suárez, 2002 Análisis sociológico con documentos personales Rodríguez Jaume, M.ª José, Garrigós, José Ignacio, 2017-06-30 Este Cuaderno Metodológico aborda el uso con fines científicos de documentos personales inobstrusivos esto es de documentos personales que han sido escritos sin ningn est mulo exterior es decir sin ser solicitados por ningn investigador Se toma como referencia la clásica idea de la investigación no obstrusiva inobstrusiva discreta o no reactiva unobtrusive que en 1966 enunció Eugene Webb junto con sus colaboradores En la actualidad han aparecido nuevos espacios biográficos donde la gente común publica su relato en primera persona sobre sus vivencias y sentimientos se trata sobre todo de los diarios en línea o blogs weblogs fotologs y videoblogs Además se ha publicado una gran cantidad de libros escritos por personas que narran aspectos cruciales de sus vidas como el enfrentamiento a enfermedades graves o la experiencia con la adopción Estos libros que nosotros denominaremos documentos personales de formación son un claro ejemplo de documentos personales en la posmodernidad a la vez que un excelente modelo para tratar los problemas metodológicos y técnicos inherentes a la investigación con documentos personales inobstrusivos Cada una de las fases de la investigación con este tipo de documentos se fundamenta en el fenómeno de las adopciones y en las narraciones en primera persona que sobre este tema se publicaron en España entre los años 1990 y 2011

Afrontar la muerte en Ciencias de la salud Cayetano Fernández Sola, 2012 Justificamos esta investigación en las potencialidades que ofrece una sinergia entre las ciencias de la salud la filosofía y las experiencias del mundo de la vida para afrontar un fenómeno que pertenece a la vida como es la propia finitud y muerte Según la literatura las características esenciales del proceso de la muerte en la sociedad contemporánea son el ocultamiento de la decrepitud y la muerte la soledad en que los moribundos se enfrentan al último trance la conspiración del silencio y la institucionalización del proceso de la muerte escenario de la medicalización de la agonía reflejo de un fenómeno más amplio como es la terapeutización de la existencia Como reacción se pretende recuperar la dignidad de la persona en el proceso de la muerte positivizada en la regulación del derecho a la información las voluntades anticipadas y de la muerte digna En ese marco los profesionales de la salud reclaman ayuda y formación técnica y humanística para afrontar los nuevos retos que plantean los cuidados al final de la vida Los objetivos de la tesis son la elaboración de un marco filosófico para el afrontamiento reflexivo de la muerte en ciencias de la salud y explorar el fenómeno del afrontamiento de la muerte mediante el análisis de los testimonios de afectados por enfermedades terminales El marco epistemológico y metodológico es la fenomenología hermenéutica de Gadamer y Ricoeur Como marco teórico partimos del modelo de afrontamiento de la muerte en etapas de Elisabeth Kubler-Ross complementado con el modelo centrado en las emociones de Robert Buckman la teoría de los contextos de toma de conciencia de la muerte de Glaser y Strauss y el modelo de conservación de la dignidad de Harvey Max Chochinov En el marco filosófico para el afrontamiento reflexivo de la muerte contraponemos una visión integracionista de la analogía mítica centrada en la razón y

representada por el estoicismo de Séneca y una visión agnóstica centrada en la individualidad y representada por el pensamiento de Miguel de Unamuno. En este análisis filosófico surgen las categorías para la interpretación de los temas emergentes en los discursos sobre el afrontamiento. Los testimonios utilizados son once narraciones de pacientes y testigos publicados con notable éxito editorial en la última década. Conforman una muestra variada en cuanto a edad, origen, sexo y enfermedad que padecen. El análisis de los datos comienza con una lectura completa de cada obra y una posterior transcripción, revisión y análisis lineal por línea. Se han utilizado tres niveles de análisis: sintáctico, semántico y pragmático, ayudándonos para ello del software ATLAS.ti 6.2. Los temas principales que emergen del análisis son la enfermedad como sentencia de muerte que origina un caudal de emociones, afrontar la amenaza con los subtemas: lucha por la vida, dimensión personal del afrontamiento y dimensión contextual del afrontamiento y cambio de filosofía de vida con las subcategorías: salida inauténtica y salida auténtica. Concluimos que la lucha por la vida es una actitud preestablecida del hombre que se esfuerza por vivir y sobrevivir en cuyo marco hay que analizar la medicalización de la vida. La terapia sea curativa o paliativa ha de acompañarse del cuidado emocional, la reflexión y la introspección. Para ello es imprescindible afrontar la muerte con la conciencia abierta y con dignidad. La filosofía debe ayudar al común de los mortales en el afrontamiento de la muerte al potenciar e iluminar ese acto de reflexión. Puede adoptarse las formas de arte de vida o de logos para el cuidado emocional.
