Developpement Durable Doctrines Pratiques Evaluations:

Développement durable ? Jean-Yves Martin, 2014-03-27 La crise environnementale que connaît actuellement la Terre marque les limites de la science et du progrès technologique et remet en cause nos savoirs et nos certitudes. Cette crise écologique s'accompagne de la menace d'une aggravation des inégalités entre pays du Sud et pays du Nord, signe patent d'un certain échec du développement. Si l'environnement physique et biologique a été au cœur des discussions du Sommet de la Planète tenu à Rio de Janeiro en 1992, le Sommet de Johannesburg de août 2002 vise quant à lui à concilier les impératifs sociaux, économiques et environnementaux dans une nouvelle démarche de développement durable. Les contributions réunies dans cet ouvrage questionnent les différents aspects du développement durable, les doctrines qui le sous-tendent, l'évolution des pratiques locales face au discours dont il est porteur, enfin son insertion dans les grands enjeux de la mondialisation. Le développement durable peut-il relever d'un discours autre que moral ? Il faut pour cela retrouver les origines des concepts de développement durable, de développement social, biodiversité, savoirs locaux, et les défendre pour mieux les reconstruire. L'examen de contextes locaux, environnement urbain, forêts, populations en milieu aride, modalités d'accueil de réfugiés, montre le décalage entre les pratiques concrètes et la prétendue volonté de développement durable. Enfin, les changements mondialisés révèlent de grands enjeux et risques globaux : insécurité nutritionnelle, les maladies virales émergentes, la diffusion inégale des savoirs, le trompe-l'œil idéologique que peut être le développement durable. Ainsi, comme le montre explicitement cet ouvrage, questionner le développement durable, c'est aussi le remettre en question.

Sustainability and Communities of Place Carl A. Maida, 2007 The concept of sustainability holds that the social, economic, and environmental factors within human communities must be viewed interactively and systematically. Sustainable development cannot be understood apart from a community's ethos and ways of life. Although broadly conceived, the pursuit of sustainable development is a local practice because every community has different needs and quality of life concerns. Within this framework, contributors representing the disciplines of anthropology, sociology, geography, economics, law, public policy, architecture, and urban studies explore sustainability in communities in the Pacific, Latin America, Sub-Saharan Africa, Eastern Europe, and North America. Contributors: Janet E. Benson, Karla Caser, Snjezana Colic, Angela Ferreira, Johanna Gibson, Krista Harper, Paulo Lana, Barbara Yablon, Maida Carl A. Maida, Kenneth A. Meter, Dario Novellino, Deborah Pellow, Claude Raynaut, Thomas F. Thornton, Richard Westra, Magda Zanoni.

Tibetan Medicine in the Contemporary World Laurent Pordié, 2008 The popularity of Tibetan medicine plays a central role in the international market for alternative medicine and has been increasing and extending far beyond its original cultural area, becoming a global phenomenon. This book analyses Tibetan medicine in the 21st century by considering the contemporary reasons that have led to its diversity and by bringing out the common orientations of this medical system. Using case studies that examine the social, political, and identity dynamics of Tibetan medicine in Nepal, India, the PRC, Mongolia, the UK, and the US, the contributors to this book answer the following three fundamental questions: What are the

modalities and issues involved in the social and therapeutic transformations of Tibetan medicine How are national policies and health reforms connected to the processes of contemporary redefinition of this medicine How does Tibetan medicine fit into the present globalized context of the medical world Written by experts in the field from the US France Canada China and the UK this book will be invaluable to students and scholars interested in contemporary medicine Tibetan studies health studies and the anthropology of Asia Winner of the ICAS Colleagues Choice Award 2009 **Current Debates in Tourism & Development Studies** Mustafa Doğan, Farhang Morady, 2018 This book focus on to comprehensively examine tourism and development debates with some local cases and global conceptual perspective Throughout the book case studies and photographs are provided to illustrate key points The list of references is impressive and exhaustive which confirms the authors intentions to take an overall trip to the existing literature Practically nothing has been omitted all relevant authors have been consulted and the structure of the book follows an organized order This is why this book will be of a great interest to tourism and development studies students at first place is also for managers academics politicians and all others interested in the subject *Creating Food Futures* Janice Jiggins, 2016-05-13 A global transformation in food supply and consumption is placing our food security at risk What changes need to be made to the ways we trade process and purchase our food if everyone in the world is going to have enough wholesome food to eat Is there genuine scope for creating food futures that embrace considerations such as ecological sustainability and social equity as well as placing good food on the table and making money Drawing upon examples of innovative food chains in Europe Canada Africa and Latin America leading academics and practitioners challenge the idea that individuals are powerless in the face of global supply chains and the legal apparatus protecting them The authors do not however underestimate the scale of the task at hand They explore the tensions and dilemmas inherent in innovative practice such as the ethics of mainstreaming balancing a variety of goals and the ways in which success is defined as well as presenting success stories and explaining how they were achieved *Creating Food Futures* provides you with inspiring examples of what is being done and thought provoking suggestions for future work Marginality and Exclusion in Egypt Ray Bush, Habib Ayeb, 2012-06-14 What does it mean to be marginalized Is it a passive condition that the disadvantaged simply have to endure Or is it a manufactured label reproduced and by its nature transitory In the wake of the new uprising in Egypt this insightful collection explores issues of power politics and inequality in Egypt and the Middle East It argues that the notion of marginality tends to mask the true power relations that perpetuate poverty and exclusion It is these dynamic processes of political and economic transformation that need explanation The book provides a revealing analysis of key areas of Egyptian political economy such as labour urbanization and the creation of slums disability refugees street children and agrarian livelihoods reaching the impactful conclusion that marginalization does not mean total exclusion What is marginalized can be called upon to play a dynamic part in the future as is the case with the revolution that toppled President Mubarak Against Injustice Reiko Gotoh, Paul Dumouchel, 2009-10-29 Traditional

theories of justice as formulated by political philosophers jurists and economists have all tended to see injustice as simply a breach of justice a breakdown of the normal order Amartya Sen s work acts as a corrective to this tradition by arguing that we can recognise patent injustices and come to a reasoned agreement about the need to remedy them without reference to an explicit theory of justice Against Injustice brings together distinguished academics from a variety of different fields including economics law philosophy and anthropology to explore the ideas underlying Sen s critique of traditional approaches to injustice The centrepiece of the book is the first chapter by Sen in which he outlines his conception of the relationship between economics ethics and law The rest of the book addresses a variety of theoretical and empirical issues that relate to this conception concluding with a response from Sen to his critics
