Dialectics Of Oppression In Zaire:

The Dialectics of Oppression in Zaire Michael G. Schatzberg, 1991 Political Legitimacy in Middle Africa Michael G. Schatzberg, 2001-11-13 In this innovative work Michael G Schatzberg reads metaphors found in the popular press as indicators of the way Africans come to understand their political universe Examining daily newspapers popular literature and political and church documents he finds that widespread and deeply ingrained views of government and its relationship to its citizenry may be understood as a projection of the metaphor of an idealized extended family onto the formal political sphere

An Archive of Possibilities Rachel Marie Niehuus, 2023-12-29 In An Archive of Possibilities anthropologist and surgeon Rachel Marie Niehuus explores possibilities of healing and repair in the eastern Democratic Republic of Congo against a backdrop of 250 years of Black displacement enslavement death and chronic war Niehuus argues that in a context in which violence characterizes everyday life Congolese have developed innovative and imaginative ways to live amid and mend from repetitive harm Drawing on ethnographic fieldwork and the Black critical theory of Achille Mbembe Christina Sharpe Alexis Pauline Gumbs and others Niehuus explores the renegotiation of relationships with land as a form of public healing the affective experience of living in insecurity the hospital as a site for the socialization of pain the possibility of necropolitical healing and the uses of prophesy to create collective futures By considering the radical nature of cohabitating with violence Niehuus demonstrates that Congolese practices of healing imagine and articulate alternative ways of living in a global regime of antiblackness

Leadership and Authority Titre Ande, 2011-06-01 This book proposes that Christian theology in Africa can have a significant impact if a critical understanding of the socio political situation in contemporary Africa is taken seriously The Christian leadership in post colonial Africa has cloned its understanding and use of authority on the Bula Matari model which issued from the brutality of colonialism and political absolutism in post colonial Africa This model has caused many problems in churches including dysfunction conflicts division and lack of prophetic ministry The book proposes that Life Community ecclesiology can liberate authority where leadership is a function not a status and apostolic succession belongs to all the people of God This is a superb book on leadership which has implications for all in church leadership beyond the Congo Ande analyzes how church leadership has often mimicked secular models in an unhelpful way He critiques the use of power and privilege and offers an alternative model of life community ecclesiology This is an informative instructive and compelling read

Cathy Ross J V Taylor Fellow in Missiology Oxford University Manager Crowther Centre for Mission Education CMS Dr Ande s book is a very important addition to the history of Christianity in the eastern Congo Democratic Republic His careful study of the growth of the Anglican church in Boga and Aru clearly and vividly explores the different dynamics of church growth in these two areas He is sensitive to the differing ways in which Ugandan Anglicanism has provided models for the development of the church in Congo by a study both of the original evangelism from Buganda associated with Apolo Kivebulaya in Boga and the more recent impact of Revivalist Christianity mediated through the West

Nile during times of political confusion in both countries The historical material is used with great insight to develop a constructive theology of power and authority in the church and to critique existing structures of clerical and episcopal power Kevin Ward Senior Lecturer Department of Theology and Religious Studies University of Leeds Rt Rev Dr Titre Ande Georges Congolese is currently the Anglican Bishop of the Diocese of Aru Democratic Republic of Congo He is a former principal of the Anglican Theological College ISThA at Bunia and still lectures at the college He has a PhD from the University of Birmingham

O'Kane, 2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more

Beyond Eurocentrism Peter Gran, 1996 Eurocentrism influences virtually all established historical writing With the rise of Prussia and by extension Europe eurocentrism became the dominant paradigm for world history Employing the approaches of Gramsci and Foucault Peter Gran proposes a reconceptualization of world history He challenges the traditional convention of relying on totalitarian or democratic functions of a particular state to explain and understand relationships of authority and resistance in a number of national contexts Gran maintains that there is no single developmental model but diverse forms of hegemony that emerged out of the political crisis following the penetration of capitalism into each nation In making comparisons between seemingly disparate and distinctive nations and by questioning established canons of comparative inquiry Gran encourages people to recognize the similarities between the West and non West nations

The Dialectics of Secret Society Power in States Stanton K. Tefft, 1992 The Dialectics of Secret Society Power in States explores a fascinating problem neglected by social science for many years the political role of secret societies in state systems Through a comparative study of secret society activity in five states this book provides a penetrating analysis of the dynamics of state secret society power relations The five states and corresponding secret societies presented in this study are Liberia Poro and Sande Ottoman Turks Bektashi Ching China White Lotus Malaysia Triad and South Africa Broederbond Unique to this book is the portrayal of secret societies as organizations responsive to the conflicts generated by structural contradictions within state systems and the larger social systems of which states are integral units Unlike earlier studies of secret orders that provide largely descriptive accounts of secret organizations and their rituals The Dialectics of Secret Society Power in States clearly identifies the nature of the conflicts in which secret societies are involved and shows how this involvement impacts on the secret order and its power relations with the state This study also presents an integrated theoretical assessment of secret societies as both products of as well as forces for sociopolitical change It will be of particular interest to political anthropologists and political sociologists as well as those studying social and revolutionary movements in Asia and Africa
