commends the habit of critical thinking an appreciation for irony and an irenic approach to opposition as helpful stances for
improving people s efforts to talk about religion In addressing rhetorical and hermeneutical issues commonly found in
philosophical theology and the philosophy of religion this work s approach through the genre of dialogue will interest those
concerned with the intersection of religion and literature Scepticism in the Eighteenth Century: Enlightenment.
Lumières, Aufklärung Sébastien Charles,Plínio J. Smith,2014-07-08 The Age of Enlightenment has often been portrayed as a
dogmatic period on account of the veritable worship of reason and progress that characterized Eighteenth Century thinkers
Even today the philosophes are considered to have been completely dominated in their thinking by an optimism that leads to
dogmatism and ultimately rationalism However on closer inspection such a conception seems untenable not only after careful
study of the impact of scepticism on numerous intellectual domains in the period but also as a result of a better
understanding of the character of the Enlightenment As Giorgio Tonelli has rightly observed the Enlightenment was indeed
the Age of Reason but one of the main tasks assigned to reason in that age was to set its own boundaries Thus given the
growing number of works devoted to the scepticism of Enlightenment thinkers historians of philosophy have become
increasingly aware of the role played by scepticism in the Eighteenth Century even in those places once thought to be most
given to dogmatism especially Germany Nevertheless the deficiencies of current studies of Enlightenment scepticism are
undeniable In taking up this question in particular the present volume which is entirely devoted to the scepticism of the
Enlightenment in both its historical and geographical dimensions seeks to provide readers with a reevaluation of the alleged
decline of scepticism At the same time it attempts to resituate the Pyrrhonian heritage within its larger context and to
recapture the fundamental issues at stake The aim is to construct an alternative conception of Enlightenment philosophy by
means of philosophical modernity itself whose initial stages can be found herein Man on His Own Bruce
