

history of terrorism

1st Century BCE-13th Century: Terrorism in the Pre-Modern World:

The history of [terrorism](#) is as old as humans' willingness to use violence to affect politics. The [Sicarii](#) were a first century Jewish group who murdered enemies and collaborators in their campaign to oust their Roman rulers from Judea.

The [Hashhashin](#), whose name gave us the English word "assassins," were a secretive Islamic sect active in Iran and Syria from the 11th to the 13th century.

[Ads](#)

Their dramatically executed assassinations of [Abbasid](#) and [Seljuk](#) political figures terrified their contemporaries.

Zealots and assassins were not, however, really terrorists in the modern sense. Terrorism is best thought of as a modern phenomenon. Its characteristics flow from the international system of nation-states, and its success depends on the existence of a mass media to create an aura of terror among many people.

1793: The Origins of Modern Terrorism:

The word terrorism comes from the Reign of Terror instigated by [Maxmillien Robespierre](#) in 1793, following the [French revolution](#). Robespierre, one of twelve heads of the new state, had enemies of the revolution killed, and installed a dictatorship to stabilize the country. He [justified his methods](#) as necessary in the transformation of the monarchy to a liberal democracy:

Subdue by terror the enemies of liberty, and you will be right, as founders of the Republic.

Robespierre's sentiment laid the foundations for modern terrorists, who believe violence will usher in a better system.

For example, the 19th century [Narodnaya Volya](#) hoped to end Tsarist rule in Russia. But the characterization of terrorism as a [state action](#) faded, while the idea of terrorism as an attack against an existing political order became more prominent. Globalization, War, and Peace in the Twenty-first Century William R. Nester, 2010-11-15 Violence is as old as humanity Organized violence or war is as old as the first organized societies Throughout history most states were either preparing for engaging in or recovering from war Yet recently the threat or use of violence in international relations known as geopolitics has sharply diminished as nearly all states are at peace all or most of the time Nonetheless geopolitical conflicts instigated by rogue states militant ideologies transnational terrorist groups revolutionary movements or voracious ruthless economic interests continue to plague countries and regions around the world Although each geopolitical conflict has unique causes underlying them all is some volatile mix of the best and worst of human nature Many a war has been fought under the lofty banner of justice freedom and equality Many more however are provoked by the far darker motives of greed aggression fear vengeance hatred and ignorance Globalization War and Peace in the Twenty first Century explores humanity's most persistent and tragic problem by answering five crucial questions How is military power created and asserted How do international laws and organizations constrain war Why do nations go to war or stay at peace What continuities and changes characterize recent warfare What are weapons of mass destruction and what is the likelihood of them being used What are the source methods and results of terrorism and counterterrorism The emphasis is on recent headlines with case studies on the war against Al Qaeda the Iraq War the Israeli Palestinian conflict attempts by North Korea and Iran to become nuclear powers and other ongoing tragedies and threats All along the book reveals why geopolitics persists even though the ever thickening web of

interdependent relations among nation states and peoples known as globalization sharply raises war's costs and reduces its benefits
