Twenty Thousand Leagues Under the Sea Jules Verne,2020-09-28 The year 1866 was signalised by a remarkable incident a mysterious and puzzling phenomenon which doubtless no one has yet forgotten Not to mention rumours which agitated the maritime population and excited the public mind even in the interior of continents seafaring men were particularly excited Merchants common sailors captains of vessels skippers both of Europe and America naval officers of all countries and the Governments of several States on the two continents were deeply interested in the matter For some time past vessels had been met by an enormous thing a long object spindle shaped occasionally phosphorescent and infinitely larger and more rapid in its movements than a whale The facts relating to this apparition entered in various log books agreed in most respects as to the shape of the object or creature in question the untiring rapidity of its movements its surprising power of locomotion and the peculiar life with which it seemed endowed If it was a whale it surpassed in size all those hitherto classified in science Taking into consideration the mean of observations made at divers times rejecting the timid estimate of those who assigned to this object a length of two hundred feet equally with the exaggerated opinions which set it

down as a mile in width and three in length we might fairly conclude that this mysterious being surpassed greatly all dimensions admitted by the learned ones of the day if it existed at all And that it DID exist was an undeniable fact and with that tendency which disposes the human mind in favour of the marvellous we can understand the excitement produced in the entire world by this supernatural apparition As to classing it in the list of fables the idea was out of the question On the 20th of July 1866 the steamer Governor Higginson of the Calcutta and Burnach Steam Navigation Company had met this moving mass five miles off the east coast of Australia Captain Baker thought at first that he was in the presence of an unknown sandbank he even prepared to determine its exact position when two columns of water projected by the mysterious object shot with a hissing noise a hundred and fifty feet up into the air Now unless the sandbank had been submitted to the intermittent eruption of a geyser the Governor Higginson had to do neither more nor less than with an aquatic mammal unknown till then which threw up from its blow holes columns of water mixed with air and vapour Similar facts were observed on the 23rd of July in the same year in the Pacific Ocean by the Columbus of the West India and Pacific Steam Navigation Company But this extraordinary creature could transport itself from one place to another with surprising velocity as in an interval of three days the Governor Higginson and the Columbus had observed it at two different points of the chart separated by a distance of more than seven hundred nautical leagues *Children's Books in Print* ,1993 *Children's Books In Print 1998* Bowker Editorial Staff,R R Bowker Publishing,Bowker,1998 **The Jules Verne Encyclopedia** Brian Taves,Stephen Michaluk,1996-04-09 This is a reference work on the novelist Jules Verne one of the most important literary figures of all time An in depth listing of all English language versions of his novels is included [The National Union Catalog, Pre-1956 Imprints](#) ,1979 **The Well-Trained Mind** Susan Wise Bauer,Jessie Wise,2009-05-04 Outstanding should be on every home educator s reference bookshelf Homeschooling Today This educational bestseller has dominated its field for the last decade sparking a homeschooling movement that has only continued to grow It will instruct you step by step on how to give your child an academically rigorous comprehensive education from preschool through high school Two veteran home educators outline the classical pattern of education the trivium which organizes learning around the maturing capacity of the child s mind With this model you will be able to instruct your child in all levels of reading writing history geography mathematics science foreign languages rhetoric logic art and music regardless of your own aptitude in those subjects Newly revised and updated The Well Trained Mind includes detailed book lists with complete ordering information up to date listings of resources publications and Internet links and useful contact information [American Book Publishing Record Cumulative, 1950-1977: Fiction. Department of Bibliography,1978 **Twenty Thousand Leagues Under the Sea (illustrated Classics)** Jules Verne,2021-02-12 Professor Aronnax his faithful servant Conseil and the Canadian harpooner Ned Land begin an extremely hazardous voyage to rid the seas of a little known and terrifying sea monster However the monster turns out to be a giant submarine commanded by the mysterious Captain Nemo

by whom they are soon held captive So begins not only one of the great adventure classics by Jules Verne the Father of Science Fiction but also a truly fantastic voyage from the lost city of Atlantis to the South Pole *The Complete Home Learning Sourcebook* Rebecca Rupp,1998 Lists all the resources needed to create a balanced curriculum for homeschooling from preschool to high school level **The Publishers' Trade List Annual** ,1886 Catalog of Copyright Entries.
