Feulner, Mary Anastasia O'Grady, 2004 This is the bedrock conclusion of the 2004 Index of Economic Freedom published annually by The Heritage Foundation Washington s preeminent think tank and The Wall Street Journal the world s leading international business daily This 10th anniversary edition of the Index is a practical reference guide to the world s economies It includes country by country analyses and the most up to date data available on foreign investment codes taxes tariffs banking regulations monetary policy informal markets and more The Index of Economic Freedom is also available in two other forms as a CD ROM and on the Web Based on years of continuing research and analysis the internationally acclaimed Index of Economic Freedom remains one of the world s most reliable and authoritative guides to economic growth an essential resource for anyone who wants to understand why some countries prosper while others still lag behind Book jacket

NATO Enlargement Joseph A. Christoff, 2003 In Nov 2002 NATO was to consider the admission of new members to the alliance The U S Senate mandated that the GAO review and assess a report that Congress directed the President to provide on countries seeking membership in NATO The President submitted a report to Congress in Aug 2002 GAO found that the report responded to the mandated requirements with information that was generally accurate and current However the discussion of each country s efforts to implement democratic principles and reforms was limited and did not reflect the challenges these countries face in the transition to democratic societies or their efforts to address those challenges in areas such as civil liberties judicial independence human rights and minority rights

A Noble Calling David W. Whitlock, Gordon Dutile, 2008-01-01 Too often individuals who have been called to practice their gifts and talents in the field of business and professional life sense that to serve God they ought to be doing something more directly involved with the church Many successful business leaders upon coming to faith in Christ or upon renewing their interest in God s Word struggle with whether or not they should enter vocational ministry Certainly God calls some from among the professions into such vocations but many simply haven t realized the full potential of where God has placed them God s people who are assigned to duties in corporate boardrooms or offices on sales forces in entrepreneurial ventures and as members of research and development teams are among his most effective servants Believers who are active in the marketplace are surely among God s most treasured ministers and have the potential to have a wider impact and larger

influence than most who serve in full time vocational ministries Likewise these professionals have a capacity for great harm to the church and the cause of Christ if while they make claims of Christian belief their actions prove inconsistent with what God s Word teaches if their walk doesn t match their talk Be encouraged God wants to use you where you are He wants to sanctify all of what you have learned and experienced You have great potential in the kingdom
