

1.3 INJECTING DRUG USE AND HIV/AIDS

Global estimates, provided by UNAIDS and WHO, indicate that by the end of 2003 between 34 and 46 million people were living with HIV/AIDS. Between 4.2 and 5.8 million people were infected in 2003 alone. In the same year, between 2.5 and 3.5 million people died of AIDS. While the bulk of new infections are due to unsafe sexual behaviour, the use of contaminated injection equipment among injecting drug users continues to fuel the pandemic, particularly in Eastern Europe, Central, South and South-East Asia and Latin America.

The World Heroin Market Letizia Paoli,Victoria A. Greenfield,Peter Reuter,2009-04-10 Heroin is universally considered the world s most harmful illegal drug This is due not only to the damaging effects of the drug itself but also to the spread of AIDS tied to its use Burgeoning illegal mass consumption in the 1960s and 1970s has given rise to a global market for heroin and other opiates of nearly 16 million users The production and trafficking of opiates have caused crime disease and social distress throughout the world leading many nations to invest billions of dollars trying to suppress the industry The failure of their efforts has become a central policy concern Can the world heroin supply actually be cut and with what consequences The result of a five year long research project involving extensive fieldwork in six Asian countries Colombia and Turkey this book is the first systematic analysis of the contemporary world heroin market delving into its development and structure its participants and its socio economic impact It provides a sound and comprehensive empirical base for concluding that there is little opportunity to shrink the global supply of heroin in the long term and explains why production is concentrated in a handful of countries and is likely to remain that way On the basis of these findings the authors identify a key set of policy opportunities largely local and make suggestions for leveraging them This book also offers new insights into market conditions in India Tajikistan and other countries that have been greatly harmed by the production and trafficking of illegal opiates A deft integration of economics sociology history and policy analysis The World Heroin Market provides a rigorous and vital look into the complex and resilient global heroin trade
