A Hunter-Gatherer's Guide to the 21st Century Heather Heying,Bret Weinstein,2021-09-14 A provocative exploration of the tension between our evolutionary history and our modern woes and what we can do about it We are living through the most prosperous age in all of human history yet we are listless divided and miserable Wealth and comfort are unparalleled but our political landscape is unmoored and rates of suicide loneliness and chronic illness continue to skyrocket How do we explain the gap between these truths And how should we respond For evolutionary biologists Heather Heying and Bret Weinstein the cause of our troubles is clear the accelerating rate of change in the modern world has outstripped the capacity of our brains and bodies to adapt We evolved to live in clans but today many people don't even know their neighbors names In our haste to discard outdated gender roles we increasingly deny the flesh and blood realities of sex and its ancient roots The cognitive dissonance spawned by trying to live in a society we are not built for is killing us In this book Heying and Weinstein draw on decades of their work teaching in college classrooms and exploring Earth's most biodiverse ecosystems to confront today's pressing social ills from widespread sleep deprivation and dangerous diets to damaging parenting styles and backward education practices Asking the questions many modern people are afraid to ask *A Hunter-Gatherer's Guide to the 21st Century* outlines a science-based worldview that will empower you to live a better wiser life
