25 Bridge Myths Exposed:

25 Bridge Myths Exposed David Bird,2002 Do you remember the first few times you played bridge To get you started a friend probably gave you a few helpful hints perhaps one of the ones listed to the left There are many such general guidelines for bridge players some of them valuable some not But these are the Bridge Myths not the Bridge Rules because they all have exceptions and none should be followed blindly In reading this book you will get to see what it is about each guideline that makes it so useful more importantly you will also learn to recognize the times when you should ignore it

DECLARER S MYTHS Draw trumps straight away Hold up an ace Win as cheaply as possible Play low in second seat Eight ever nine never Ruff losers in the dummy Finesse whenever you can Play on your longest suit first Lead towards high cards Ruff the defenders winners Lead low to a trick Run your longest suit Leave the big decision until last

DEFENDER S MYTHS Third hand high Return partner s suit Cover an honor with an honor Second hand low Capture an honor with an honor Lead through strength Discard from your weakest suit Score a ruff when you can Never give a ruff and sluff Split your honors Follow low when a trick is lost Don t ruff partner s winner

David Bird who lives near Southampton England has written more than 100 books on the game Despite spending much of the year travelling he still finds time to write new stories every month for a host of magazines around the world usually featuring his best known characters the monks of St Titus Abbey He is also a regular commentator on BBO broadcasts of top level competitions

Inferences at Bridge Marshall Miles,2002 To be successful a bridge player has to think like a detective tracking down the distribution of the unseen hands Although many players are oblivious to them the tell tale clues are there just waiting to be noticed They are there just waiting to be noticed They are there in the auction and in the opening lead Every time a defender plays a card declarer receives information Similarly everything that declarer does can be turned to advantage by alert defenders There is even vital intelligence to be gained by thinking about what a player does not do In this book you will learn where to look for these clues and more importantly how to draw the correct inferences from them From there it is only a short step to making bids and plays based on those inference and thereby becoming a much better player

Pathways to Better Bridge Defense Danny Roth,2003 So you tend to be dealt very bad hands I know exactly you feel But facing the facts of life and recognising that it is not your fault you are going to have to accommodate this failing and improve your defence It is a hard part of the game even in international competitions the standard of defensive play is to put it kindly modest Yes you will get plenty of reports of brilliances involving spectacular switches deceptions unblocks and discards of honours But for every one of those there are countless others in which the display would disgrace any beginners class I am going to assume that you are a regular club or tournament player who knows the basics of defence but who comes unstuck when it comes to situations where you have to work the hand out in detail This book will help you to improve dramatically in this area
