**Life Before the War** Michael Alpert,2026-01-30 In northern Britain and parts of Wales and Scotland your life might well be dominated throughout the 1930s by unemployment low wages poor nutrition ill health and slum housing But if you lived in the Midlands London or the South East by the latter 1930s you would probably be enjoying a far better life as you benefited from the spread of electric power new factories and products a greater variety of food a huge private and public house building programme and expansion of all sorts much of it created by the sums spent on rearmament For people living in prosperous areas real wages rose substantially between 1936 and 1939 as was shown by their increased consumption of food and clothes The latter 1930s were years of ever more widespread leisure pursuits among them near universal cinema going newspaper reading and for many millions holiday making A well paid working man or office worker might even be able to buy a car Even so most working class wages especially for women remained below those of the middle classes and class differences were still clearly marked in housing food clothing education medical treatment and purchasing power in general Your views on religion marriage sex and behaviour in general remained sharply defined and changed slowly and only at the end of the decade could the beginnings of change be seen At the same time the Second World War which began on 3 September 1939 was the climax of a long period of increasing anxiety during which the press the wireless and the cinema newsreel brought foreign affairs more and more into your daily life Using varied sources including personal memories and daily life as pictured in newspapers and novels Michael Alpert presents a broad picture of life for ordinary people in Britain nearly a century ago

**1938: Modern Britain** Michael John Law,2017-12-14 In 1938 Modern Britain Michael John Law demonstrates that our understanding of life in Britain just before the Second World War has been overshadowed by its dramatic political events 1938 was the last year of normality and Law shows through a series of case studies that in many ways life in that year was far more modern than might have been thought By considering topics as diverse as the opening of a new type of pub the launch of several new magazines the emergence of push button radios and large screen televisions sets and the building of a huge office block he reveals a Britain both modern and intrigued by its own modernity that was stopped in its tracks by war and the austerity that followed For some life in Britain was as consumerist secular Americanized and modern as it would become for many in the late 1950s and early 1960s Presenting a fresh perspective on an important year in British social history illuminated by six engaging case studies this is a key study for students and scholars of 20th century Britain

**The Roadhouse Comes to Britain** David W. Gutzke,Michael John Law,2017-04-20 This is the first book to examine the cultural phenomenon of the roadhouse in mid 20th century Britain and its impact on British leisure The term roadhouse was used in varied ways in the 1930s from small roadside tearooms to enormous establishments on the outskirts of major cities These roadhouses were an important component in the transformation of leisure in the 1930s and beyond reflecting the increased levels of social and physical mobility brought about by new technologies suburbanisation and the

influence of American culture Roadhouses attracted wealthy Londoners excited by the prospect of a high speed run into the countryside During the day they offered family activities such as tennis archery horse riding and swimming At night they provided all the fun of the West End with dancing classy restaurants cabaret swimsuit parades and dance demonstrations subverting the licensing laws to provide all night drinking Rumours abounded of prostitution and transgressive behaviour in the car park Roadhouses formed part of an imaginary America in suburban Britain that was promoted by the popularity of American movies music and fiction providing a pastiche of the American country club While much work has been done on the Soho nightclubs of the 1930s the roadhouse has been largely ignored Michael John Law and David Gutzke fill this gap in the literature by providing a comprehensive analysis of the roadhouse s cultural meaning demonstrating how its Americanisation was interpreted for British consumers This original and engaging study will be fascinating reading for all scholars of 20th century British cultural history

Sun, Fun, and Crowds Steven Braggs,Diane Harris,2000 The inter war period saw the annual holiday become part of the lives of large numbers of people in Britain for the first time In the Edwardian age it had been a privilege enjoyed by the few but by the end of the 1930s 15 million people were going away to the coast for a week or two This book explores all the facets of the seaside holiday where people went and why how they got there where they stayed and what they did We take in the first holiday camps which opened in the 30s as well as some wonderful modern hotels that were the epitome of sophistication and style We examine the architecture of pleasure in the form of cinemas piers lidos and pavilions This intriguing account is richly illustrated throughout with a mixture of contemporary photographs and postcards publicity material posters and modern images
