The Astrological and Numerological Keys to The Secret Doctrine, Volume 2 Bodo Balsys,2021-02-01 This volume continues with a detailed explanation of the nature of the ageless wisdom and its codification via astrological and numerological means It starts with happenings upon the higher mental plane and then the process of the materialisation of phenomena right through to the dense physical plane The subjective happenings underlying the formation of a world sphere are described as well as the great Lives involved The focus is upon the genesis of our earth and of the incarnation of humanity upon it Much more information is given concerning the activities of the twelve Creative Hierarchies than previously plus the mode of the manifestation of phenomena as it condenses from the subtle planes of perception to appear as dense substance Our empirical scientists begin their investigations here hence omitting the vast subjective processes and associated laws causing objective phenomena Blavatsky s genius is revealed in her masterful incorporation of the vast esoteric philosophy via the most economic means where each word chosen produces an astounding revelatory vision once properly decoded Those not familiar with this philosophy will be astounded by its overall completeness and breadth of detail They will be led to an ocean of discovery as to what actually constitutes the nature of the content of an enlightened Mind Hopefully this will lead many to seek the way to likewise become enlightened beings

Astrology Roger B. Culver,Philip A. Ianna,1988-09 Contemporary astrologers claim that their craft is scientifically based and rationally consistent and above all that astrology works a belief shared by millions of Americans including highly visible political and media personalities As a result the practice of consulting the stars for advice has never been more popular or more dangerous Professional astronomers Roger B Culver and Philip A Ianna have produced a highly readable and well referenced response to the claims of astrologers This book points out the glaring inconsistencies associated with the basic concepts of modern astrology from the zodiac itself to the fabled Age of Aquarius Tracing humanity s historical fascination with the heavens that produced the celestial twins of astronomy and astrology the authors leave little doubt concerning the difference between astronomical

science and astrological art form Astrology True or False offers a complete and extensive summary of available evidence on astrology's basic definitions, concepts, and effectiveness. The author's research revealed thousands of predictions gone bust from the start of World War III to claims about the existence of an anti-Earth orbiting on the other side of the sun. They studied the famous twenty-year cycle of presidential death and disaster, the moon cycles of crime and murder in major cities, and the incidences of major personality traits in certain sun signs. Their conclusions, while disappointing to the determined believer in astrology, are nevertheless refreshingly rational.

Eclipses Rose Lineman, 1984. The interpretational guidelines and delineations presented in this book include the significance of solar and lunar eclipse sequences, sign influence, house meanings, aspect emphasis, and delineation of eclipse location charts. Through detailed analysis of case studies, the author points out the role eclipses play in personal experiences and public events. She traces behavioral and developmental patterns from infancy through maturity, showing correspondence to eclipse activity. Karmic relationships described by prenatal eclipse ties are thoroughly explored.

Eclipses Astrological Guideposts concludes with a listing of eclipses from 1900 to 2050.
