Th Century Philosophers:

The Heavenly City of the Eighteenth-century Philosophers Carl Lotus Becker, 2003-01-01 Here a distinguished American historian challenges the belief that the eighteenth century was essentially modern in its temper In crystalline prose Carl Becker demonstrates that the period commonly described as the Age of Reason was in fact very far from that that Voltaire Hume Diderot and Locke were living in a medieval world and that these philosophers demolished the Heavenly City of St Augustine only to rebuild it with more up to date materials In a new foreword Johnson Kent Wright looks at the book s continuing relevance within the context of current discussion about the Enlightenment Will remain a classic a beautifully finished literary product Charles A Beard American Historical Review The Heavenly City of the Eighteenth Century Philosophers remains one of the most distinctive American contributions to the historical literature on the Enlightenment It is likely to beguile and provoke readers for a long time to come Johnson Kent Wright from the foreword The Age of Analysis, 1957 Ideas of the Twentieth Century Daniel Bonevac, 2014-01-15 The twentieth century ushered in significant progress as philosophers scientists artists and poets across the world improved the way we lived Yet the last century also brought increased levels of war tyranny and genocide and people lost faith in values Now thinkers and leaders are reconstructing theories of value and creating institutions to embody them In this thought provoking broad sweeping course you will learn how philosophy art literature and history shaped the past century and continue to impact our world today **The Age of Analysis** Morton Gabriel White, 1983 **One Hundred Twentieth-Century Philosophers** Stuart Brown, 2017-06-28 One Hundred Twentieth Century Philosophers offers biographical information and critical analysis of the life work and impact of some of the most significant figures in philosophy this century Taken from the acclaimed Biographical Dictionary of Twentieth Century Philosophers the 100 entries are alphabetically organised from Adorno to Zhang Binglin and cover individuals from both continental and analytic philosophy The entries have an identical four part structure making it easy to compare and contrast information comprising biographical details a bibliography of major works a listing of relevant secondary and critical literature an appraisal of the philosopher s thoughts and achievements A separate glossary provides an introduction to the origins development and main features of major philosophical schools and movements and offers select bibliographies to guide the reader to further research *The Age of Analysis* Morton White, 1970 Political Philosophers of the Twentieth Century Michael Lessnoff, 1999-01-12 This volume provides an outstanding survey of the major political philosophers of the twentieth century **Biographical Dictionary of Twentieth-century Philosophers** Stuart C. Twentieth-Century British Philosophers Stuart Brown,2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture [The History of Western Philosophy of](#)

Twenty-one Twentieth Century Philosophers in Bronze Hendrik Adrianus François Oosterling, 1999 *The Antipodean Philosopher* Graham Oppy, N. N. Trakakis, Lynda Burns, Steven Gardner, Fiona Leigh, 2011-02-22 Philosophy in both Australia and New Zealand has been experiencing for some time now something of a golden age exercising an influence in the global arena that is disproportionate to the population of the two countries To capture the distinctive and internationally recognised contributions Australasian philosophers have made to their discipline a series of public talks by leading Australasian philosophers was convened at various literary events and festivals across Australia and New Zealand from 2006 to 2009 These engaging and often entertaining talks attracted large audiences and covered diverse themes ranging from local histories of philosophy in particular the fortunes of philosophy in Melbourne Sydney Brisbane Adelaide and New Zealand to discussions of specific topics including love free will religion ecology feminism and civilisation especially as these have featured in the Australasian philosophy and to examinations of the intellectual state of universities in Australasia at the beginning of the twenty first century These talks are now collected here for the first time to provide not only students and scholars but also the wider community with a deeper appreciation of the philosophical heritage of Australia and New Zealand Classification of the Library of Union Theological Seminary, New York Union Theological Seminary (New York, N.Y.). Library, 1924 Twentieth 20th Century Philosophers,... Robert S.. Ehrlich, 1965 **The Writer's Book of Memory** Janine Rider, 2013-11-05 Memory has long been ignored by rhetoricians because the written word has made memorization virtually obsolete Recently however as part of a revival of interest in classical rhetoric scholars have begun to realize that memory offers vast possibilities for today's writers Synthesizing research from rhetoric psychology philosophy and literary and composition studies this volume brings together many historical and contemporary theories of memory Yet its focus is clear memory is a generator of knowledge and a creative force which deserves attention at the beginning of and throughout the writing process This volume emphasizes the importance of recognizing memory's powers in an age in which

mass media influence us all and electronic communication changes the way we think and write It also addresses the importance of the individual memory and voice in an age which promotes conformity Written in a strong lively personal manner the book covers a great deal of scholarly material It is never overbearing and the extensive bibliography offers rich vistas for further study
