Ohio Right To Life Voter Guide:

God at the Grassroots 2016 Mark J. Rozell, Clyde Wilcox, 2017-11-02 In *God at the Grassroots 2016* The Christian Right in American Politics a distinguished group of political scientists many of whom have been studying the Christian Right for more than two decades assess the 2016 elections from the standpoint of religious conservative activism These elections more than any that they have analyzed best tell the story of the resilience of this movement and its enduring importance The contributors address the evolution of the religious right movement for more than two decades and focus primarily on the movement's role in the 2016 elections The first section examines the broader national context with chapters on the Republican nomination campaign the general election and the relationship between the religious right and the tea party The second section comprises state specific chapters focusing primarily on the crucial states in the 2016 presidential contest They conclude with lessons learned from the studies of the religious right in the elections from 1994 through 2016 and address directions for continued research on the subject Contributions by Joseph Cella Kimberly H Conger Matthew Corrigan Paul A Djupe Christopher P Gilbert James L Guth Donna R Hoffman Ted G Jelen Alexander Jensen Christopher W Larimer Mikael Pelz Sucheta Pyakuryal Carin Robinson Mark J Rozell Corwin E Smidt Oran P Smith Kenneth D Wald Clyde Wilcox and Abigail Zofchak

The Values Campaign? John C. Green, Mark J. Rozell, Clyde Wilcox, 2006-08-17 The Christian Right never ceases to surprise professional observers of American politics With the Christian coalition in disarray many expected that the movement would play less of a role in the 2004 elections But when exit polls reported that moral values were the most commonly cited reason for presidential vote choice pundits immediately proclaimed the importance of the values vote Yet the role of the Christian Right of statewide referenda on same sex marriage and of religious mobilization remained the subject of debate *The Values Campaign* The Christian Right and the 2004 Elections reaches well beyond the instant analyses of the post election period to provide an assessment of the role of the religious right in 2004 The contributors to this volume are among the leading scholars of religion and politics in the United States and many have contributed for over a decade to ongoing discussions of the role played by the religious right in national elections The authors consider national mobilization and issues and also explore the role of the Christian Right in specific states Their evaluations contend that the values campaign was not an aberration but a consistent pattern of national politics and that moral traditionalism will likely continue to be a significant factor in future elections A timely study of the 2004 elections this volume will appeal to scholars and observers of electoral politics state politics and religion and politics

We Gather Together Neil J. Young, 2016 Tracing the interactions among evangelicals Catholics and Mormons from the 1950s to the present day *We Gather Together* recasts the story of the emergence of the Religious Right showing that it was not a brilliant political strategy of compromise and coalition building hatched on the eve of a history altering election Rather it was the latest iteration of a much longer religious debate that had been going on for decades Evangelicals Catholics and Mormons found common cause and pursued similar ends in
