just enough to start up and fly home a stolen MIG 15 fighter Finally declassified in 1988 and only released to the public in 2015 via a FOIA request by Governmentattic.org this unique look at Cold War Air Force intelligence product is a must read for students of Soviet era aviation Informally as the How to Steal a MIG manual it was interestingly published by the Air Technical Intelligence Center at Wright Patterson AFB in 1955 a mere two years after the U S obtained a functioning Mig 15 from N Korean defector No Kum Sok who defected to Kimpo Air Base on 21 September 1953 His MiG 15 was minutely inspected and was test flown by several test pilots including Chuck Yeager It is now in the collection of the National Museum of the United States Air Force near Dayton Ohio This manual has been prepared specifically for the purpose of providing USAF personnel with operating information on the MiG 15 Only the information the pilot must know is presented Some procedures which might be considered unorthodox for operational flying of this airplane are recommended because they represent the simplest means of assuring safe flight
