Body And Politics Studies In Reproduction And Construction:

Body/Politics Thomas Shevory, 2000-02-28 Negotiating the terrain between techno optimism and eco pessimism this work establishes the political connections between technologies of the body property and the environment Specific technologies of the body such as surrogacy and in vitro fertilization are examined in relation to their political and legal constructions Next Shevory analyzes private property as an evolving historical concept that implicates environmental and biological transformations with particular attention given to biotechnology cases He then considers the body s appearance and its alterations through plastic surgery dieting or piercing as political constructions A theoretical overview specifies technoprogressivist liberal and technophobic traditions especially as they have evolved in the United States during the second half of the 20th century Drawing upon critical and feminist theories Shevory specifies a body politics that negotiates the terrain between these two traditions Body technologies and markets he argues interact to consolidate and reinforce dominant systems of power while at the same time resisting and sometimes subverting them Technology is often a factor in the fragmentation of evolving political ideological discourses on the left and right however the resulting instabilities create the potential for both the expansion of global capital and its subversion via democratic interventions

Forthcoming Books Rose Arny, 2003-04 Constructing Victimhood Cheryl Lawther, 2024-11-18 Constructing Victimhood seeks to go beyond innocence and guilt to expand the criminological victimological and transitional justice image of who we see as victims what we hear as experiences of victimisation and who makes these determinations The book argues that the construction reproduction and politicisation of victimhood is structured not only by notions of innocence and guilt and the existence of complex victims but by larger questions concerning the existence of complex hierarchies of victimhood that supersede simplistic notions of good and bad victims Lawther also considers the exercise of voice the role of silence and the silencing of certain variants of victimhood in gender based crimes for example the politicisation of victims groups and the impact of unresolved legacies of violent conflict The author argues that in the failure to cast the transitional justice gaze

more widely it is not only the voices in the cracks that will be overlooked but entire experiences of victimhood and victimisation If transitional justice is to live up to its claims of being victim centred widening its conceptual and practical boundaries to recognise the multiple and overlapping variables that construct and reproduce victimhood is essential Pursuing this line of enquiry Constructing Victimhood aims to change our understanding of victimhood in post conflict and transitional contexts *The Routledge Handbook of the Body* Bryan Turner,2012-07-24 In the last three decades the human body has gained increasing prominence in contemporary political debates and it has become a central topic of modern social sciences and humanities This collection of thirty original essays by leading figures in the field explores these issues across a number of theoretical and disciplinary perspectives with a wide range of case studies **Interfacing Dance and Technology** Isabel Cavadas Valverde,2004 *Choice* ,2001 **The Publishers' Trade List Annual** ,2000 *(Hetero)sexual Politics* Mary Maynard,June Purvis,1995 Sexuality and sexual politics have been much debated over the last 20 years Feminists in particular have been responsible for politicising the debate pointing out how something that is usually regarded as private and personal is in fact a public and political issue The very title of this book signals the debt owed by feminists to Kate Millett whose pioneering work in the field was first published in 1969 The arguments and debates have moved on since then and heterosexuality in particular can no longer be taken for granted and must along with other forms of sexuality be explicitly addressed Discussing sexuality in a diverse range of contexts from hetero sensibilities on the Oprah Winfrey show to Women Warriors in the Gulf war Hetero sexual Politics illustrates the diversity and excitement of debates about sexuality in Women s Studies and feminism today and points to new paths for feminist analysis thinking and action **New Literature on Women** ,2000 *Discovering Normality in Health and the Reproductive Body* Caroline H.
