**Vat of Acid** Jade Wylde, 2024-06-24 Well that's going to be a problem you mutter to yourself staring down at the body lying awkwardly on the basement floor A quick check confirms your suspicions No pulse skin already cold to the touch Definitely dead When Jamie Marsten wakes up to find their unwilling guest unexpectedly dead in the basement it's a race against time to dispose of the body before someone stumbles onto their secret Only one problem it isn't quite as simple as they make it look on TV Seriously where's a handy vat of acid when you need one Perfect for anyone looking for a short novella following a morally grey serial killer with a cause

*Mr Crippen, Cora and the Body in the Basement* Matthew Coniam, 2021-11-01 The historic 1910 London domestic murder case is re-examined using new DNA evidence in this true crime study It was an open and shut case Hawley Harvey Crippen an American quack doctor had murdered his wife the music hall performer Belle Elmore and buried parts of her body in the coal cellar of their North London home But by the time the remains were discovered he had fled the country with his mistress disguised as his son After a thrilling chase across the ocean he was caught returned to England tried and hanged remembered forever after as the quintessential domestic murderer But if it was as straightforward as the prosecution alleged why did he leave only some of the body in his house when he had successfully disposed of the head limbs and bones elsewhere Why did he stick so doggedly to a plea of complete innocence when he might have made a sympathetic case for manslaughter Why did he make no effort to cover his tracks if he really had been planning a murder These and other questions remained tantalising mysteries for almost a century until new DNA tests conducted in America exploded everything we thought we knew for sure about the story This book the first to make full use of this astonishing new evidence considers its implications for our understanding of the case and suggests where the real truth might lie Praise for *Mr Crippen Cora and the Body in the Basement* This is a well researched book on a 1910 murder case in London that is accumulating increasing interest comparable in some ways to Jack the Ripper Alan Moss *The History of the Yard*
