Boiling Of Frogs:

Boiling Frogs Barbara Rockwell,2005-12 The story goes that if you throw a frog into a pot of boiling water he will jump out and save himself If you place the same frog in a pot of cool water and slowly bring it to a boil he will allow himself to be boiled to death This is exactly what is happening to millions of people around the world Industry has introduced tens of thousands of chemical compounds into our human environment since World War II We are the frogs in a vast scientific experiment In 1992 Intel Corporation tightened its grip on the mesa above the village of Corrales New Mexico building its two billion dollar flagship plant there Soon the battle is on between the unholy triad of big money big business and politics and a band of quaint guerillas that see their peaceful rural lifestyle threatened by the new neighbor on the hill Touted as a clean industry residents soon find out that making computer chips is anything but clean as tons of toxic chemicals pollute the air they breathe and their water is pumped out from under them at an alarming rate *Boiling Frogs* is a shocking tell all a fully documented report of Intel s takeover of New Mexico and a cautionary tale for anyone who wakes up to find out that a corporate monster has moved in next door Lippincott's Monthly Magazine ,1884 **Lippincott's Magazine** ,1884

Rodrigues, Shuo Wang, Yan Yang, Lifang Zhang, 2023-03-01 China and Africa have long shared a history of allegiance and
contact points through global political forces from the time of colonialism and the Cold War With China's rise as the new
superpower its presence in Africa has expanded leading to significant economic geopolitical and cultural shifts While issues
such as trade aid and development have received much attention Chinese and African encounters through the lens of the
visual arts and material culture is a neglected field Visualising China in Southern Africa Biography Circulation Transgression
is a ground breaking volume that addresses this deficit through engaging with the work of contemporary African and Chinese
artists while analysing broader material production that prefigures the current relationship The essays are wide ranging in
their analysis of ceramics photography painting etching sculpture film performance postcards stamps installations political
posters cartoons and architecture Visualising China in Southern Africa confines its focus to southern Africa yet even within
this region the context is complex Ethnicity and nationalism the lingering influence of Cold War allegiances and colonial
configurations all continue to play a role The various visual cultures discussed in this volume emphasise the commonality of
these categories but also point towards other shared histories that transcend the nation state category The collection
includes scholarly chapters photo essays interviews and artists personal accounts organised around four themes material
flows orientations and transgressions spatial imaginaries and biographies The artists photographers filmmakers curators and
