Solidarities Beyond Borders Pascale Dufour, Dominique Masson, Dominique Caouette, 2010-08-01 Scholars of social movements tend to overlook the achievements and political significance of women's movements Through theoretical discussions and empirical examples *Solidarities Beyond Borders* demonstrates the creativity and dynamism of transnational women's movements around the world These timely case studies from North America Latin America and Southeast Asia introduce feminists activists and scholars to the benefits and challenges of building relationships dialogues and perspectives that extend beyond the boundaries of nation states and disciplines The contributors open a dialogue between feminist theorists and scholars of social movements in other disciplines in order to foster mutual recognition of common interests and identities Although feminists and women's groups face challenges as they build solidarities beyond borders this book makes the case that these links can be extended to embrace other progressive movements and their goals [Operation Gatekeeper and Beyond](#) Joseph Nevins, 2010-06-10 This is a major revision and update of Nevins earlier classic and is an ideal text for use with undergraduate students in a wide variety of courses on immigration transnational issues and the politics of race inclusion and exclusion Not only has the author brought his subject completely up to date but as a case of increasing economic integration and liberalization along with growing immigration control the US Mexico Border and its history is put in a wider global context of similar developments elsewhere A companion website is available at www.routledge.com/textbooks/9780415996945 The Companion Website contains key US government documents related to the boundary and immigration enforcement strategy reports from non partisan research entities and non governmental organizations that evaluate enforcement from a civil and human rights perspective and studies that investigate migrant deaths in the US Mexico borderlands There are also photo essays including one related to deportations and another to California's Border Field State Park for which the site also includes historic photos and other resources Finally the site has links to websites from US government agencies involved in boundary and immigrant policing to humanitarian and border migrant and human rights organizations **The Proceedings of the Scientific Meetings of the Zoological Society of London** Zoological Society of London, 1872 [Beyond the Left](#) Stephen Harper, 2012-01-27 The ideological distortions of the conservative media from Fox News to the Daily Mail are widely acknowledged and often denounced among contemporary critics and commentators But what if The Guardian newspaper and BBC news in fact constitute the most insidious forms of capitalist propaganda In a wide ranging and erudite polemic *Beyond the Left* analyses capitalist news and current affairs media from a radical perspective The book rejects the liberal and pluralist paradigms that often underpin critiques of the media showing how media texts reflect and reinforce the material interests of the ruling class and arguing that the principal ideological menace today is posed not by the right wing but by the left liberal media as it coopts and obscures radical political positions and reinforces a range of mystifications from anti fascism and humanitarian war to green politics Drawing on the work of

radical media critics as well as the writings of revolutionary communist groups and considering the recent reporting of war industrial action immigration and the environment Beyond the Left updates and recharges the Marxist critique of the media
