Borders Of Life:

Placing the Border in Everyday Life Reece Jones, Corey Johnson, 2016-04-22 Bordering no longer happens only at the borderline separating two sovereign states but rather through a wide range of practices and decisions that occur in multiple locations within and beyond the state's territory. Nevertheless, it is too simplistic to suggest that borders are everywhere since this view fails to acknowledge that particular sites are significant nodes where border work is done. Similarly, border work is more likely to be done by particular people than others. This book investigates the diffusion of bordering narratives and practices by asking who borders and how. *Placing the Border in Everyday Life* complicates the connection between borders and sovereign states by identifying the individuals and organizations that engage in border work at a range of scales and places. This edited volume includes contributions from major international scholars in the field of border studies and allied disciplines who analyze where and why border work is done. By combining a new theorization of border work beyond the state with rich empirical case studies, this book makes a ground-breaking contribution to the study of borders and the state in the era of globalization.

Routledge Handbook of Borders and Tourism Dallen J. Timothy, Alon Gelbman, 2022-12-13 The *Routledge Handbook of Borders and Tourism* examines the multiple and diverse relationships between global tourism and political boundaries. With contributions from international leading thinkers, this book offers theoretical frameworks for understanding borders and tourism and empirical examples from borderlands throughout the world. This handbook provides a comprehensive overview of historical and contemporary thinking about evolving national frontiers and tourism. Tourism, by definition, entails people crossing borders of various scales and is manifested in a wide range of conceptualizations of human mobility. Borders significantly influence tourism and determine how the industry grows, is managed, and manifests on the ground. Simultaneously, tourism strongly affects borders, border laws, border policies, and international relations. This book highlights the traditional relationships between borders and tourism, including borders as attractions, barriers, transit spaces, and determiners of tourism landscapes. It offers deeper insights into current thinking about space and place, mobilities, globalization, citizenship, conflict, and peace, trans-frontier cooperation, geopolitics, otherness, and here versus there, the heritagization of borders, and memory-making, biodiversity, and bordering, debordering, and rebordering processes. Offering an unparalleled interdisciplinary glimpse at political boundaries and tourism, this handbook will be an essential resource for all students and researchers of tourism, geopolitics, and border studies, geography, anthropology, sociology, history, international relations, and global studies.
