These include long established foundations disciplines such as sociology of education and philosophy of education as well as newer theoretical perspectives such as critical race theory, feminist educational theory, and cultural studies in education. Intercultural Communication Education and Research Hamza R'boul, Fred Dervin, 2023-05-12. Seeking to uncover underlying epistemic invisibilities in generating intercultural communication education and research knowledge and to open up space for envisaging interculturality, alternatively, this book reexamines and problematizes the assumptions and ontologies in the conceptual systems of interculturality. In enunciating and critiquing what has been largely endorsed, normalized, and taken for granted, this volume brings to the fore different, changing, and situated understandings of intercultural ontologies and epistemologies in terms of premises, workings, and objectives, unveiling the entangled factors and contexts that have delimited and circumscribed the realm. The authors believe that the

field would benefit from some cognitive and sensory dissonance while reengaging effectively with notions to move forward In particular they endeavour to de monumentalize and disrupt the very conceptual tenets that may have rendered interculturality myopic repetitive monolithic and aseptic in expanding the epistemic concerns of the intercultural especially in the English language This book will be an essential read for scholars and students of the sociology of education educational philosophy and intercultural education and also for all readers interested in the broad field of interculturality
