Distribution Requirements Planning Chapter 8:

DRP: Distribution Resource Planning André J. Martin,1992-10-01 This updated revision explains how to design implement and manage a cutting edge distribution system based on quick response continuous replenishment concepts Practical guidelines demonstrate how to dramatically improve the accuracy of product deliveries reduce levels of inventory lower operating costs and refine productivity Distribution Planning and Control David Frederick Ross,2003-11-30 When work began on the first volume of this text in 1992 the science of distribution management was still very much a backwater of general management and academic thought While most of the body of knowledge associated with calculating EOQs fair shares inventory deployment productivity curves and other operations management techniques had long been solidly established new thinking about distribution management had taken a definite back seat to the then dominant interest in Lean thinking quality management and business process reengineering and their impact on manufacturing and service organizations For the most part discussion relating to the distribution function centered on a fairly recent concept called Logistics Management But despite talk of how logistics could be used to integrate internal and external business functions and even be considered a source of competitive advantage on its own most of the focus remained on how companies could utilize operations management techniques to optimize the traditional day to day shipping and receiving functions in order to achieve cost containment and customer fulfillment objectives In the end distribution management was for the most part still considered a dreary science concerned with transportation rates and cost trade offs expediting and the tedious calculus Today the science of distribution has become perhaps one of the most important and exciting disciplines in the management of business *Distribution* David F. Ross,2012-12-06 It has been said that every generation of historians seeks to rewrite what a previous generation had established as the standard interpretations of the motives and circumstances shaping the fabric of historical events It is not that the facts of history have changed No one will dispute that the battle of Waterloo occurred on June 11 1815 or that the allied invasion of Europe began on June 6 1944 What each new age of historians are attempting to do is to reinterpret the motives of men and the force of circumstance impacting the direction of past events based on the factual social intellectual and cultural milieu of their own generation By examining the facts of history from a new perspective today's historians hope to reveal some new truth that will not only illuminate the course of history but also validate contemporary values and societal ideals Although it is true that tackling the task of developing a new text on logistics and distribution channel management focuses less on schools of philosophical and social analysis and more on the calculus of managing sales campaigns inventory replenishment and income statements the goal of the management scientist like the historian is to merge the facts and figures of the discipline with today's organizational cultural and economic realities Hopefully the result will be a new synthesis where a whole new perspective will break forth exposing new directions and opportunities *Manufacturing Planning and Control for Supply Chain Management* Thomas E. Vollmann,2005 Vollman

Berry Whybark and Jacobs Manufacturing Planning Control Systems 5 e provides comprehensive real world based coverage of the concepts tools and methods used to manage and control manufacturing systems This major revision contains four entirely new chapters and four thoroughly upgraded to nearly original content ERP system coverage and the impact of them in the field is covered now in a new introductory chapter 4 as well as being integrated heavily into many other chapters from Sales and Operations Planning 3 to Advanced Scheduling Systems 16

Manufacturing Resource Planning: MRP II Oliver W. Wight, 1984 THE MISSING LINK IN PRODUCTIVITY Our Manufacturing Economy at a Crossroads Understanding the Scheduling Problem From MRP to MRP II The Impact of MRP II on Productivity A NEW SET OF VALUES The New Principles of Systems The Old Principles of Management The CEO s New Priorities MANAGING ALL OF THE RESOURCES OF A MANUFACTURING COMPANY MORE PRODUCTIVELY The CEO s Role in MRP II MRP II in Marketing MRP II in Manufacturing MRP II in Purchasing MRP II in Finance MRP II in Engineering DRP Distribution Resource Planning MRP II in Data Processing Systems BECOMING A CLASS A USER Justification Implementing MRP II The Education Task Operating With MRP II Beyond MRP II Appendices Glossary Index
