## Cocos Surprise:

**CoCo** Boisy G Pitre, Bill Loguidice, 2013-12-10 **CoCo** The Colorful History of Tandy's Underdog Computer is the first book to document the complete history of the Tandy Color Computer CoCo a popular 8 bit PC series from the 1980s that competed against the era's biggest names including the Apple II IBM PC and Commodore 64 The book takes you inside the interesting stories and people behind this unique underdog computer Both noted computer science and technology advocates authors Pitre and Loguidice reveal the story of a pivotal period in the home computing revolution from the perspective of Tandy's CoCo As these computers were sold in Radio Shack stores throughout the United States and other countries they provide a critical point of reference for key events in the unprecedented evolutionary period for the PC industry in the 1980s The book also features first hand accounts from the people who created and promoted the CoCo from the original Tandy executives and engineers to today's active product creators and information keepers The CoCo impacted many lives and this book leaves no stone unturned in recounting this fascinating slice of the PC revolution that is still in play today From early telecommunications experiments to engineering and budgetary challenges it covers all the aspects that made the CoCo a truly personal useful computing experience in as small and inexpensive a package as possible *Pacific Below*, 1997

Paradise of the Pacific, 1903 **The Handbook of Hybrid Securities** Jan De Spiegeleer, Wim Schoutens, Cynthia Van Hulle, 2014-08-06 Introducing a revolutionary new quantitative approach to hybrid securities valuation and risk management To an equity trader they are shares For the trader at the fixed income desk they are bonds after all they pay coupons so what's the problem They are hybrid securities Neither equity nor debt they possess characteristics of both and carry unique risks that cannot be ignored but are often woefully misunderstood The first and only book of its kind The Handbook of Hybrid Securities dispels the many myths and misconceptions about hybrid securities and arms you with a quantitative practical approach to dealing with them from a valuation and risk management point of view Describes a unique quantitative approach to hybrid valuation and risk management that uses new structural and multi factor models Provides strategies for the full range of hybrid asset classes including convertible bonds preferreds trust preferreds contingent convertibles bonds labeled additional Tier 1 and more Offers an expert review of current regulatory climate regarding hybrids globally and explores likely political developments and their potential impact on the hybrid market The most up to date in depth book on the subject this is a valuable working resource for traders analysts and risk managers and an indispensable reference for regulators *Staying Power* A. P. Obura, 2008 *The Druggists' Bulletin*, 1890 **Reimagining Rapport** Zane Goebel, 2021 To do ethnography a researcher must have rapport with research subjects But what is rapport Ethnography and ethnographic methods have increasingly become a feature of social inquiry in general and sociolinguistics in particular and rapport is generally considered a prerequisite for fieldwork And yet unlike related terms such as communication and phatic communion this concept has remained largely unexamined Reimagining Rapport turns a critical eye to the use of the term

rapport across disciplines The collection analyzes the very idea of rapport both exploring how it has been shaped by historical forces and actors within sociocultural anthropology and questioning its usefulness Rather than viewing the term as simply denoting a type of positive social relationship that needs to be formed between researcher and consultant before research can begin this book invites us to reimagine rapport theoretically methodologically and meta methodologically Zane Goebel and other leading sociolinguists challenge readers to think about how rapport has been constructed within these disciplines and ultimately to see rapport as an emergent co constructed social relationship that is actively built during situated multimodal encounters The contributors collectively examine the role of ideology and mediation in the construction of rapport and argue that reconceptualizing research subject relationships is essential for establishing more sophisticated ways of understanding interpreting and representing research context A valuable resource for scholars and students of sociolinguistics and linguistic anthropology as well as for others engaged in ethnographic fieldwork Reimagining Rapport is the first collection to provide an in depth investigation of this critically important but previously unexamined concept
