Business Guide to Competition Law Cameron Markby Hewitt (Firm),1995 *Business Guide to Competition Law*
ATMD Bird & Bird (Firm),2011 Day-to-Day Competition Law Patrick Hubert,Marie Leppard,Olivier Lécroart,2014-06-05

Companies today must consider and comply with competition law in their daily business management The financial and reputational risks for breaching such rules are severe and the success of many merger and acquisition projects depends very much on it While competition law rules become increasingly sophisticated business people are still expected to comply with it Rather than giving a theoretical approach that can be found in a typical practitioner s book or textbook Day to Day competition law a practical guide for businesses is genuinely a practical book The interaction between theory and practice is the main feature of the book Major competition law issues are explained in a jargon free manner and summarized in a nutshell at the end of each chapter Not only will the reader gain an understanding of competition law rules but also will gain a better understanding on how a company can behave and what to do if it is subject to an investigation by the competition authorities This practical guidance may serve as a platform for designing internal in house rules governing behaviour in relation to competition law and may also trigger a revision of such rules in light of some of the issues raised by the authors While a particular focus is drawn on the EU as the EU competition law system is replicated in a large number of countries around the world reference to differing rules and other key jurisdictions such as the United States is also made This book is written to appeal to business people as well as non specialized in house lawyers and all those who wish to understand competition law in a clear and practical way The authors experience in the field of competition law ranges from leading investigations on behalf of competition authorities to applying competition law in a major global company in its daily activities and advising multinational clients of one of the world s leading law firms It is this professional insight which provides the reader with an invaluable inside view of all aspects of competition law from the way authorities think to the impacts competition law has on businesses Day-to-Day Competition Law Patrick Hubert,Marie Leppard,Olivier Lécroart,2014

Competition law is too often considered in business as a matter of specialists Yet it impacts dramatically the working lives of people who hold the positions farthest from legal skills including salespeople This book is meant for them They will learn the objectives and rules of competition law They find that talking to a competitor can lead to years in prison or to hundreds of millions of euro of fine They will learn that public authorities reward denunciation but there are ways to get out of seemingly intractable situations Moreover competition law will be presented in day to day context pricing contract signings company acquisitions development of marketing strategies participation in a trade union or in a business dinner as many opportunities to apply easy reflexes once you understood the logic Written in an accessible style by experienced authors who have been for years in contact with business men and women facing this both mysterious and frightening law this book is not intended to transform its readers into specialists but to help them interact with lawyers and get the reflexes
