Business Objects Delivering Cooperative Objects For Client Server:

Business Objects Oliver Sims,1994-01-01 An innovative look at how businesses can benefit from applying object orientation to client server systems As well as focusing on the creation of software in the form of CBOs the book clearly explains the enabling layer of middleware necessary between the operating system and applications *Business Object Design and Implementation* Jeffrey V. Sutherland,Dilip Patel,Cory Casanave,Joaquin Miller,Glenn Hollowell,2012-12-06 Over the past 10 years object technology has gained widespread acceptance within the software industry Within a wider context however it has made little impact on the core applications which support businesses in carrying out their tasks This volume contains a collection of papers establishing the need for Business Objects with particular reference to work undertaken by the Object Management Group OMG The emphasis is on defining an agenda for establishing Business Object standards and architectures for developing software technology to support Business Objects applications and managing object oriented development projects The wide variety of papers presented and their authors expertise make this book a significant contribution to the development of Business Objects and their management **Business Object Design and Implementation II** Dilip Patel,Jeff Sutherland,Joaquin Miller,2012-12-06 This proceedings contains some of the papers presented at the Business Object and Implementation Workshops held at OOPSLA 96 OOPSLA 97 and OOPSLA 98 The main theme of the workshops is to document the evolution of business objects from any perspectives including modelling implementation standards and applications The 1996 workshop intended to clarify the specification design and implementation of interoperable plug and play distributed business object components and their suitability for delivery of enterprise applications and to assess the impact of the WWW and more specifically the Intranet on the design and implementation of business object components The main focus of the workshop was What design patterns will allow implementation of business objects as plug and play components How can these components be assembled into domain specific frameworks What are the appropriate architectures mechanisms as distributed object systems What for implementing these frameworks organisational and development process issues need to be addressed to successfully deliver these systems Is this approach an effective means for deploying enterprise application solutions The third annual workshop OOPSLA 97 was jointly sponsored by the Accredited Standards Committee X3H7 Object Information Management Technical Committee and the Object Management Group OMG Business Object Domain Task Force BODTF for the purpose of soliciting technical position papers relevant to the design and implementation of Business Object Systems The Unified Modeling Language. "UML" '98: Beyond the Notation Jean Bezivin,Pierre-Alain Muller,2004-06-30 This volume contains mainly the revised versions of papers presented at the wo shop 98 Beyond the Notation that took place in Mulhouse France on June 3 4 1998 We thank all those that have made this possible and particularly all the people in Mulhouse that worked hard to make this meeting a success with such a short delay between the announcement and the realization We are specially grateful to

Nathalie Gaertner who put in a tremendous amount of effort in the initial preparation of the workshop We were pleasantly surprised of the quality of the submitted material and of the level of the technical exchanges at the Mulhouse meeting More than one hundred attendees from about twenty different countries representing the main actors in the UML research and development scene gathered in Mulhouse for two full study days We would like to express our deepest appreciation to the authors of submitted papers the editorial committee for this volume the program committee for the initial workshop the external referees and many others who contributed towards the final contents of this volume April 1999 Jean B zivin Pierre Alain Muller Component-Based Development for Enterprise Systems Paul Allen, Stuart Frost, 1998-01-13 Presents the SELECT Perspective a component based approach that addresses the demands of large scale complex enterprise software development problems **VisualAge and Transaction Processing in a Client/server Environment** Andreas Bitterer, 1996 This book discusses the role of VisualAge in the development of transaction based applications It presents different ways to connect a graphical user interface built with VisualAge to transactions residing on a host system and shows how nonvisual parts may be used to act as an interface between host components and parts representing business logic

Reengineering COBOL with Objects Robert Levey, 1996 Now COBOL programmers in client server environments don't have to learn a new language to update mission critical systems This methodology shows them how to use objects and object techniques within COBOL By gradual elimination of the maintenance backlog enterprise programmers can rebuild the old logic into a robust and adaptable software system useful for many years to come **Texas Instruments Technical Journal**, 1997 **Journal of Object-oriented Programming**, 2000 *Object-oriented Development in COBOL* Andrew Topper, 1995 Object oriented methods and the COBOL programming language have joined forces and now COBOL professionals can benefit from object technology This first of its kind guide explains how It covers analysis and design methods specifically for COBOL detailing how GUI development under Windows and OS 2 is now possible because of the object oriented extensions added to COBOL *The Essential Client/Server Survival Guide* Robert Orfali, Dan Harkey, Jeri Edwards, 1996-07-23 Join a cast of Martians on this witty comprehensive and now completely updated tour of the client server world From operating systems and communication to applications architectures that incorporate database transaction processing groupware and objects this ultimate survival guide is the reader's best source for the big picture view of the world of client server **Program Smarter, Not Harder** Jay Johnson, Rod Skoglund, Joe Wisniewski, 1995 This book disk package helps programmers write better code in less time using the latest software development techniques The authors include tools and code samples in C and Ada Programmers will learn to boost their productivity with less than half the effort required by traditional programming methods *IBM Systems Journal* International Business Machines Corporation, 1998 *Software Requirements Engineering* Sidney C.
