Heroes in the Night Tea Krulos,2013-10-01 The Watchman didn t arrive in a Batmobile but drove a tan four door Pontiac He was in costume of course a trench coat motorcycle gloves army boots a domino mask and a red hooded sweatshirt emblazoned with a W logo Journalist Tea Krulos had spoken to him over the phone but never face to mask By the

end of the interview he wasn't sure if the Watchman was delightfully eccentric or completely crazy. But he was going to find out. Heroes in the Night traces Krulos's journey into the strange subculture of Real Life Superheroes: random citizens who have adopted comic book style personas and hit the streets to fight injustice. Some concentrate on humanitarian or activist missions: helping the homeless, gathering donations for food banks, or delivering toys to children, while others actively patrol their neighborhoods looking for crime to fight. By day these modern Clark Kents work as dishwashers, pencil pushers, and executives in Fortune 500 companies. But by night only the Shadow knows. Well, the Shadow and Tea Krulos. Through historical research, extensive interviews, and many long hours walking patrol in Brooklyn, Seattle, San Diego, Minneapolis, and Vancouver, British Columbia, Krulos discovered what being a RLSH is all about. He shares not only their shining, triumphant moments but some of their ill-advised, terrifying disasters as well. It's all part of the life of a superhero. As the Watchman explains: If everyone made little changes in what they did, gave a little more to charity, watched out for their neighbors, we wouldn't have the problems that we have.

CONUNDRUM Ray J. Jones, 2013-10-30. A small group of men and women meet in wartime to journey on a path that crosses time and space boundaries. John Devine, a writer of ghost stories, gets employed by a government department run by the mysterious Colonel Draft, who specializes in watching subversives. Both unwittingly become joined to an ancient order going back to Elizabethan times, whose initiates include those at the very top of power. But it seems the order has a German branch, not to mention an American one, whose interests interweave across the next two centuries with an incredible synchronicity. Nazi plots to use occult secrets to win the war are just the beginning of a web that seem to have been previously spun by sinister forces that reach into the present day. From war-torn London to the Sussex coast to the American Midwest, *Conundrum* is the first volume in the *Other Bodies* trilogy of novels going beyond the physical limits of time and place into worlds forbidden, mysterious, and far outside our understanding.

Alpha and Omega God Mathewos T. Abera, 2012-07. The book is about the Alpha and Omega God. It is my testimony in regard to the existence and the will of the Deity creator for the entire creation. Activities I started to write about this supernatural and omnipotent God from the beginning, which is unknown time. I then proceeded in writing all the way to the time of eternity. In the book, I have talked and tried to prove the creatorship and rulership situation or condition of the Trinity God. I have done this to make peoples of this world believe in existence of the almighty and the ubiquitous God who caused every thing seen and unseen to emerge and exist as they are found now.
