Lingua Cosmica Dale Knickerbocker, 2018-05-04 Anthologies awards journals and works in translation have sprung up to reflect science fiction's increasingly international scope. Yet scholars and students alike face a problem: Where does one begin to explore global SF in the absence of an established canon? Lingua Cosmica opens the door to some of the creators in the vanguard of international science fiction. Eleven experts offer innovative English language scholarship on figures ranging from Cuban pioneer Da na Chaviano to Nigerian filmmaker Olatunde Osunsanmi to the Hugo Award winning Chinese writer Liu Cixin. These essays invite readers to ponder the themes, formal elements and unique cultural characteristics within the works of these irreplaceable if too little known artists. Dale Knickerbocker includes fantasists and genre benders pushing SF along new evolutionary paths even as they draw on the traditions of their own literary cultures. Includes essays on Da na Chaviano, Cuba; Jacek Dukaj, Poland; Jean Claude Dunyac, France; Andreas Eschbach, Germany; Ang lica Gorodischer, Argentina; Sakyo Komatsu, Japan; Liu Cixin, China; Laurent McAllister, Yves Meynard and Jean Louis Trudel, Francophone Canada; Olatunde Osunsanmi, Nigeria; Johanna Sinisalo, Finland; and Arkady and Boris Strugatsky, Russia. Contributors: Alexis Brooks de Vita, Pawel Frelik, Yvonne Howell, Yolanda Molina Gavil n, Vibeke R tzou, Petersen, Amy J Ransom, Hanna Riikka Roine, Hanna Samola, Mingwei Song, Tatsumi Takayuki, Juan Carlos Toledano Redondo and Natacha Vas Deyres. *Global Science Fiction* Gary Westfahl, 2025-06-18 Science fiction represents a diverse community of writers and readers that spans the entire world. This collection provides a global tour of the genre with essays about Latin American, European, African, Arabic, Indian, Japanese and Chinese science fiction, providing insights about how writers around the world have explored and reinvigorated the genre. Essays by prominent critics from five continents inform about particular cultures and analyze representative texts by authors such as Tobias S Buckell, Lourenco Mutarelli, Stanislaw Lem, Masande Ntshanga, Tawfiq Al Hakim, Anil Menon and Cixin Liu. The contributing scholars examine how national experiences have shaped these narratives, which often differ strikingly from Anglo American science fiction. An introductory survey of foreign language science fiction in the United States endeavors to explain why so many of these texts have remained unknown to Anglophone readers. An extensive bibliography lists numerous resources for further study of science fiction from various parts of the world. **Beyond Tomorrow** Ingo Cornils, 2020 Shows German Science Fiction's connections with utopian thought and how it attempts Zukunftsbew ltigung, coping with an uncertain but also unwritten future. *Jesus Video* Andreas Eschbach, 1998 Now and Then We Time Travel Fraser A. Sherman, 2017-02-06 More than 400 films and 150 television series have featured time travel stories of rewriting history, lovers separated by centuries, journeys to the past or the often dystopian future. This book examines some of the roles time travel plays on screen in science fiction and fantasy. Plot synopses and credits are listed for films and TV series from England, Canada, the UK and Japan, as well as for TV and films from elsewhere in the world. Tropes and plot elements are highlighted. The author discusses philosophical questions about time travel, such as the logic of timelines, causality, what's to
