*Antiquity* Guy G. Stroumsa, 2025-07-08 From early Christianity to the emergence of Islam the long late antiquity denotes a  
 truly revolutionary period in the history of religions In many ways religious ritual patterns and theological worldviews were  
 then radically transformed throughout the Near East and the Mediterranean In particular the traditional polytheistic systems  
 collapsed giving way to various forms of monotheism and dualism In *Dynamics of Monotheism in Late Antiquity* Guy G  
 Stroumsa seeks to analyze this multifaceted revolution as a whole rather than focusing as is usually the case on distinct  
 religious communities and traditions such as Judaism Zoroastrianism Gnosticism Christianity Manichaeism and earliest Islam  
 Many of the elements of religious change in our period can be perceived as a praeparatio coranica as it were as they set the  
 scene for the advent of Islam The thrust of the book is to identify the key dynamics through which religious change happened  
 in the kaleidoscope of religious conceptions The analysis emphasizes the dialectics between monotheist and dualist  
 perceptions and systems It will also seek to identify the core elements of the Abrahamic religions in the making **Das**
